SUMMARY

I am a motivated and detail-oriented cybersecurity enthusiast with hands-on experience in security tools, encryption, network traffic analysis, and incident response. I am seeking to leverage my cybersecurity training and project experience in a challenging role as an Information Security Analyst or SOC Analyst, where I can apply my skills in monitoring, detecting, and responding to cybersecurity threats, while contributing to the protection and enhancement of organizational security postures.

EXPERIENCE

Cybersecurity Intern

Shadow Fox

📅 09/2024 - 09/2024 📍 Remote

Remote-based cybersecurity internship.

- Performed open port scanning, brute force attacks, and vulnerability assessments on web applications.
- Intercepted network traffic with Wireshark to analyze credentials.
- Decrypted a password using Veracrypt, showcasing cryptographic skills.
- Delivered comprehensive reports documenting methodologies, results, and mitigation strategies.

Cybersecurity Intern

Prodigy InfoTech

📅 07/2024 - 07/2024 📍 Remote

Remote-based cybersecurity internship.

- Developed security tools using Python for encryption, password security, keylogging, and network analysis.
- Created programs for text encryption (Caesar Cipher) and image encryption.
- Developed a password complexity checker and a keylogger tool for security analysis.
- Built a network packet analyzer to monitor and assess data traffic.

EDUCATION

Bachelor of Computer Science

Mulund College Of Commerce

📅 07/2020 - 04/2023 📍 Mumbai

CERTIFICATION

Certified Ethical Hacker (CEH)

Certified Ethical Hacker from EC-Council.

Certified SOC Analyst (EC-CSA)

Certification in progress for Security Operations Center Analyst.

SKILLS

Cybersecurity

Encryption

Ethical hacking

Forensics

IDS

Information Security

Metasploit

network security

Nmap

Python

SIEM

Wireshark

TRAINING / COURSES

Introduction to Cybersecurity

Introduction to Cybersecurity offered by Cisco.

Cybersecurity Essentials

Fundamentals of Cybersecurity also offered by Cisco.

Ethical Hacking

Ethical Hacking course provided by Internshala.

PROJECTS

Various Cybersecurity Projects

📅 01/2024 - 12/2024

Various individual projects demonstrating cybersecurity skills.

- Developed a network packet analyzer to monitor network traffic.
- Created a Python program for Caesar cipher encryption/decryption.
- Built a simple keylogger with a timestamp feature.
- Set up a Security Information and Event Management (SIEM) home lab.
