EDUCATION

MASTER OF COMPUTER APPLICATIONS (MCA)

Dr. D. Y. Patil School of Science and Technology, Pune

Dr. D. Y. Patil Vidyapeeth
85.05% (2025)

BACHELOR OF COMPUTER APPLICATIONS (BCA)

Rajmata Jijau Shikshan Prasarak Mandal, Pune

63.09% (2023)

12TH (H.S.C)

SNBP College, Pune

Maharashtra Board
57.38% (2020)

10TH (S.S.C)

Gayatri English Medium School, Pune

Maharashtra Board
66.60% (2018)

TECHNICAL SKILLS

- Languages:** Java, HTML, CSS.
- Frameworks/Tools:** Spring Boot, Git, Eclipse, VS Code.
- Databases:** MySQL.
- Concepts:** OOP, REST API, MVC Architecture, CRUD Operations.

SOFT SKILLS

- Communication, Teamwork, Time Management, Problem Solving, Adaptability

LANGUAGES

- English.
- Marathi.
- Hindi.

ABOUT ME

Highly driven MCA postgraduate with strong analytical skills, collaborative spirit, and passion for technology and innovation. Seeking a challenging role to create impactful solutions and contribute to organizational success.

TRAINING EXPERIENCE

EDUBRIDGE

Java Full Stack Intern

Completed: 23 Feb 2025 ·

- Successfully completed the Certification Program in Java Full Stack offered by EduBridge.
- Acquired foundational and practical knowledge in full-stack web development.
- Covered core technologies including Java, Spring Boot, MySQL, HTML, CSS, and JavaScript.
- Gained exposure to backend logic, RESTful API development, and integration with frontend interfaces.
- Strengthened understanding of software architecture principles and debugging techniques through structured learning and assessments.

PROJECTS

MCA Final Year Project – Diabetes Prediction System Using Machine Learning and Flask.

Python, Flask, Scikit-learn, HTML/CSS, JavaScript, SQLite

- Developed a responsive web application for early diabetes prediction using ML models (Logistic Regression, Random Forest, SVM)
- Implemented user authentication, real-time prediction, and model performance visualization using Chart.js
- Achieved optimal results with Random Forest; integrated SQLite for prediction history and data storage

Online Book Store Management System.

Angular, HTML, CSS, JavaScript, Java, Spring Boot, Hibernate, MySQL, REST APIs, Postman

- Developed a full-stack e-commerce platform for browsing, purchasing, and managing books online.
- Built a responsive UI with Angular for advanced search, category filtering, and cart management.
- Implemented backend services in Java Spring Boot with Hibernate for orders, payments, and authentication.
- Designed optimized MySQL schema for efficient storage and retrieval of books, users, and transactions.
- Integrated secure payment processing and role-based access control (Admin/Customer).
- Created an admin dashboard for book inventory, order tracking, and sales management.

CERTIFICATIONS

- Infosys | Springboard:** Java Programming Fundamentals
- EXL | EduBridge:** Java Full Stack
- Google:** IT Automation with Python
- IBM:** Getting Started with Enterprise Data Science
- Ernst & Young Associates LLP:** Azure Data & AI Masterclass
