Objective

To Contribute My Expertise as a SQL Developer/DBA to an Innovative Organization, seeking a Dynamic Environment that not Only provides Opportunities for Career Advancement and Professional Growth in SQL Development/ DBA but also allows me to showcase my Talent, Enhance My Skills, and align with the Company's Goals and Objectives with unwavering Integrity and Enthusiasm.

Professional Summary

- Experienced SQL developer/DBA with 3 years of hands-on experience.
- Proficient in SQL development, database administration (DBA), and ETL (Extract, Transform, Load) processes.
- Skilled in designing, implementing, and optimizing SQL databases for efficient data management and integrity.
- Adept at transforming raw data into actionable insights for decision-making through ETL processes.
- Strong knowledge of database performance tuning and optimization techniques.
- Familiarity with data warehousing concepts and methodologies.
- Capable of writing complex SQL queries, stored procedures, triggers and Troubleshooting.
- Experience in database schema design and normalization.
- Knowledgeable about data migration and integration processes.
- Detail-oriented with a focus on ensuring data accuracy and reliability.

Work Experience

Currently Working as a SQL Developer at Assetsoft.

06/2023 - Present

Project / Client: Colliers International

Description: I specialize in SQL development, where I thrive in crafting efficient stored procedures, functions, triggers, and tackling intricate SQL joins. Beyond coding, I excel in optimizing SQL Server environments, fine-tuning SQL Jobs, Maintenance Plans, Troubleshooting, SSIS, and SSRS to ensure seamless operations. My experience extends to collaborating with global clients like Colliers International, where I've leveraged my expertise to deliver tailored database solutions. I also bring proficiency in Python and PowerShell scripting, empowering me to automate tasks and integrate systems with precision and efficiency.

Technologies: SQL Server, T-SQL, SSMS, Stored Procedure, Triggers, Fine-tuning, Maintenance Plan, SSRS, SSIS, Python, PowerShell Script, AZURE and DBA

Working as an Associate Engineer – Product Development at Harman Connected Services.

03/2022 – 06/2023

Project / Client: HYATT International

Description: I have completed rigorous training in SQL, PL-SQL, and Informatica ETL, gaining expertise in database management, procedural SQL programming, Troubleshooting, and ETL workflow design. My professional background includes collaborating with international client HYATT, where I specialized in ETL mapping, data workflow creation, session configuration, and meticulous data warehouse monitoring using Informatica ETL tools. This experience has sharpened my ability to deliver robust data integration solutions in a global business environment.

Technologies: SQL Server, T-SQL, PL-SQL, Stored Procedure, Triggers, Fine-tuning, Informatica, ETL, IICS, Sessions, Workflows, Data Mapping, Lookups, Transformations and DBA

Working as a Frontend Developer at Decision Minds.

06/2021 – 11/2021

Project / Client: Data Migrations

Description: I excel in designing web pages with ReactJS, emphasizing intuitive user interfaces. My capabilities include seamlessly integrating backend data into frontend applications and managing data migrations for smooth transitions and data integrity.

Technologies: PL-SQL, Stored Procedure, Triggers, Fine-tuning and ReactJS

Technical Skills

- SQL Server
- Database Administrator
- T-SQL/PL-SQL
- SQL Server Integrations Services
- SQL Server Reporting Services
- Python
- Power Shell Script
- AZUR

Educational Qualifications

Sagar Institute Of Science And Technology, Affiliated to RGPV University, Bhopal

B. Tech in Computer Science (CGPA: 8.67)

06/2018 - 06/2022

Personal Details

Date of Birth: 13th Nov 2000

Languages: English, Hindi, Marathi

Current Location: Pune
