WORK EXPERIENCE

Software Engineer (Frontend)

Bankai Infotech

09/2024 - Present

Ahmedabad, India

Achievements/Tasks

- Engineered a workflow-driven API builder using Next.js and Camunda BPMN.js, enabling users to create and execute APIs via custom diagram components.
- implemented modules for end-to-end user onboarding, application setup, role assignment, and organization creation to streamline platform operations.
- Built a modular system enabling custom vendor integrations and reusable API blocks for seamless workflow creation using Next.js App Router.

Contact : Tushar Patel
