SUMMARY

I aspire to excel professionally and broaden my expertise by collaborating with a dynamic and motivated team dedicated to the organization's growth. I am eager to leverage my skills and knowledge effectively within any organizational context.

PRIMARY SKILLS

- Strong understanding of the CIA triad (Confidentiality, Integrity, Availability) and the implementation of various information security controls to protect data and ensure its reliability and availability
- Expertise in applying the Cyber Kill Chain methodology to understand and disrupt the stages of cyber attacks, from reconnaissance to exfiltration, thereby enhancing defense strategies and incident response
- Skilled in utilizing the MITRE ATT&CK framework to map adversarial tactics, techniques, and procedures (TTPs), providing a comprehensive approach to threat intelligence and defensive measures.
- Proficient in leveraging Open Source Intelligence (OSINT) frameworks and various intelligence gathering tools to collect and analyze data from publicly available sources for enhanced situational awareness and threat intelligence.
- Solid understanding of networking principles, including the OSI model, TCP/IP protocols, sub netting, and network infrastructure, which are essential for identifying and mitigating security threats.
- Experienced in conducting thorough vulnerability assessments, identifying security weaknesses, and implementing effective management strategies to mitigate risks and improve overall security posture.
- Proficient in performing network and web application penetration testing to identify and exploit vulnerabilities, simulating real-world attacks to enhance security measures and fortify defenses.
- Comprehensive understanding of Security Operations Centers (SOC) and Security Information and Event Management (SIEM) systems, including their role in monitoring, detecting, and responding to security incidents.

TOOLS

- Scanning & Assessment: Nmap, Nessus, Metasploit Framework, Nikto, Owasp top10 , SQLmap.
- Monitoring & Analysis: Sysmon, Windows Event Viewer, Splunk.
- Malware Static Analysis: Exeinfo, PE Studio, Hash Calc, Resource Hacker.
- Malware Dynamic Analysis: Regshot, Process Monitor, Process Explorer, Wire shark.
- Phishing & Spam Analysis: Net craft, Phish Tank, Virus Total.
- Operating System: Parrot Security OS, Kali Linux, Windows.

CERTIFICATIONS

- Certified Ethical Hacker from EC-Council (ECC2976150843).
- VAPT & SOC at Hacking Trainer Institute Unit of Berry 9 It Services PVT LTD.

EDUCATION

- **Bachelor of Technology** : Mechanical Engineering From Acharya Nagarjuna University in 2021 with 70%.
- **Intermediate(M.P.C)** : Sri Chaitanya junior college in 2017 with 93%.
- **Secondary School Certificate(SSC)** : KGBV Nadendla in 2015 with 93%.
