OBJECTIVE

Seeking a position in the field of Electrical & Electronics Engineering where I can utilize my skills to further work towards personal and professional development and contribute towards the prosperity of the organization.

EDUCATION

Chadalawada Ramanamma Engineering College **2022-2025**

Bachelors of Technology in Electrical & Electronic Engineering

CGPA:7.5

GOVT Polytechnic Gudur **2016-2021**

Diploma

Percentage: 65%

CR Rao ZP High School **2015-2016**

SSC

GPA: 6.2

SKILLS

Programming Language

Java, MySQL.

Web Development

HTML, CSS, Bootstrap, Java Script.

Soft Skills

Good Communication, Problem-solving.

Tools

Microsoft word, Excel.

PROJECTS

Quiz Application.

The Java-Based Quiz Application is a terminal-based interactive quiz system developed during my internship at Global Quest Technologies. It allows users to answer 10 multiple-choice general knowledge questions, ending the quiz immediately on a wrong attempt to ensure accuracy. The application features two lifelines—50:50 (removes two wrong options) and Audience Poll (displays predefined voting percentages), giving it a game-show like feel. It is built using core Java concepts such as Scanner for input, if-else and switch statements for logic, and color codes for a user-friendly console experience. The entire quiz is structured within a single class, using constants and modular design for clarity and easy maintenance.

E-commerce.

This Java-based E-Commerce Application is built using the Swing framework to simulate an online shopping system. It offers a graphical interface where users can browse products across three main categories: Home, Clothing, and Electronics. Each category has subcategories with products that include details like name, brand, rating, price, and description. Users can add items to a shopping cart, adjust quantities, and generate a final bill. The project demonstrates key Java concepts such as GUI design, event handling, and data management with collections. It is mainly intended for educational purposes to give a hands-on learning experience.

CERTIFICATIONS

- NPTEL On IOT, Cloud Computing.
- I've done My SQL in Hacker Rank.
- I've done Java Course and I've my Java Certificates

EXTRA-CURRICULAR ACTIVITIES

- Playing Cricket.
