PROJECTS

Smart Home Automation Using Alexa with Node MCU **Arduino(C/C++)**

- Smart Home Automation using Alexa with Node MCU allows you to control home appliances with voice commands through Alexa and a Node MCU-controlled relay module.
- The NodeMCU is connected to the internet and also to our home appliances. It receives commands from Alexa through the cloud. For Example, when we say “Alexa turns on light”, Alexa sends the commands to the Nodemcu, and the light is turned on automatically.

AWARDS AND ACHIEVEMENTS

- Academic Excellence.
- Smart Phone Troubleshooting and Servicing.

SOFT SKILLS

- Problem-solving ability
- Reliable team player
- Time management
- Communication skills

CERTIFICATIONS

- Cyber Security and Application security. January 2024
