Professional Summary

Detail-oriented, analytical, and results-driven Software Developer with exceptional **communication skills**. Collaborative **team player** with a passion for solving complex problems, delivering high-quality code, and creating innovative solutions. Eager to leverage my skills and expertise to contribute to a dynamic organization and drive impactful outcomes.

Key Skills

Technical Skills: React JS | JavaScript | Python | Apps Script | MySQL | HTML | CSS | Typescript | Git | AWS

Other Skills: Critical Thinking | Problem Solving | Adaptability | Teamwork | Effective Communication

Professional Experience

CAW STUDIOS | Hyderabad, India *June 2022 - Present*

SOFTWARE DEVELOPMENT ENGINEER 1

MasterO | Delhi, India

React JS

- **Developed dynamic native/web app pages:** Engineered dynamic pages for native and web apps, allowing content to adapt based on admin configurations, enhancing flexibility and user experience.
- **Built studio feature for admin configuration:** Created a studio feature enabling admins to easily configure and manage dynamic pages, providing full control over content and layout customization.
- **Implemented PDF search functionality:** Developed PDF search with word highlighting and navigation, improving user efficiency in locating specific content within documents.

Celito | California, USA

React JS, TypeScript

- **Developed UI for advanced search functionality:** Implemented features like dynamic facets, sorting, responsive UI, suggestions, and top results to improve user experience for application-level and module level search.
- **Centralized error handling and notifications:** Streamlined error management by centralizing toast messages across the application, ensuring consistent and efficient communication with users.
- **Implemented sorting and filtering features:** Used Tanstack Table to enhance data presentation, allowing users to filter and sort data efficiently in list views.
- **Created certificate management feature:** Designed and developed functionality for admin users to upload, edit, and manage certificates for training completion, enhancing user management.
- **Centralized context menu handling:** Centralized the system for managing dynamic context menu actions, improving user interaction and functionality across the application.
- **Worked on task delegation system:** Worked on a feature allowing system-level task delegation based on user roles and permissions, improving workflow efficiency and user collaboration.

Haptik | Mumbai, India

Python

- **Developed custom integrations and APIs:** Enabled chatbot functionality and integrated third-party platforms for 5 clients.
- **Collaborated cross-functionally with 6 teams:** Delivered chatbot projects on-time using agile methodology for various platforms.
- **Worked on a chatbot with 50+ flows:** Integrated third-party APIs and databases for websites, WhatsApp and Android & iOS devices.

Interakt | Mumbai, India

AppsScript, HTML, CSS

- **Designed and implemented a Google Workspace add-on:** Streamlined customer data collection and management by integrating Interakt with Google Sheets using Google Apps Script and Google Cloud Platform.
- **Developed, tested, and refined the add-on:** Ensured seamless integration and compatibility with Interakt's dashboard.
- **Published the add-on on Google Workspace Marketplace:** Improved the data management experience for over 400 customers.

Education

2023, Bennett University, Bachelor of Technology in Computer Science (Minor in ECE)

9.58 CGPA

2019, City Montessori School, XII Standard (ISC)

94.5%

2017, Seth Dwarka Prasad Bajaj, X standard (ICSE)

96.2%

Certifications

- CISCO CCNAv7 - Introduction to Networks
- AWS Certified: Solutions Architect - Associate
