WORK EXPERIENCE

Created by Harsh

2030 - PRESENT

Front End Developer

- I'm fresher so I'm find a job to get good experience.
- I was made a two websites by own.
- One is travelling and second one is Men's clothing site.
- The travelling site is made by Html, css and js Language.
- And Men's clothing site is made by php, mysql and css Language.

Academic projects

Project : AH Men's clothing site

Role : Lead Developer

Duration : July 2024 - September 2024

Developed a web-based AH Men's clothing site using JavaScript, HTML, and CSS, with backend support from a MySQL database.

Implemented key features such as auto increment the stock id to have a no confusion to see which product or which id is this to customer.

Collaborated with a team of two to design, code, and test the system, ensuring seamless functionality and user-friendly interface.

Gained practical experience in version control (VScode), team collaboration, and project management.

REFERENCE

- I'm fresher so I'm find a job to get good experience.
- I was made a two websites by own.
- So I want to work with you and give my best as a company part.
