SUMMARY

Detail-oriented and motivated Full Stack Developer. Fresher in the IT industry as a developer. My key achievements include managing website content and performance for the Mining and Geology Department, resulting in improved user satisfaction and reduced client issues, and supervising construction projects that enhanced team coordination and productivity. Seeking a Full Stack Developer position at your company, where I bring my front-end and back-end development skills to support your mission of building scalable, secure, and high-performance web applications.

SKILLS

HTML CSS JavaScript Node

React PostgreSQL TailwindCSS

FlexBox Git Java JSON

OAuth Express.js ES6+

Written communication

STRENGTHS

Attention to detail

It will help to reduce the chances of making errors.

Good listener

It will help me to analyse the requirement correctly.
