CAREER OBJECTIVE

Aspiring software developer seeking an entry-level position in a dynamic organization where I can apply my technical and problem-solving skills to contribute to the company's success while continuously learning and growing.

EDUCATION

Anil Neerukonda Institute Of Technology And Sciences 2021–2025 | Visakhapatnam, India
Bachelor of Technology – Electrical and Electronics; CGPA: 6.92

SKILLS

Programming Languages	: C, Java
Web Technologies	: HTML, CSS, Bootstrap, JavaScript
Frameworks	: Spring Boot, Angular
Libraries	: ReactJS
Database	: MySQL
Version Control	: Git
Other Tools	: Postman, STS

PROJECT

• **HR Management System Tools** : HTML, CSS, MYSQL, Java 2025– I developed a web-based HR Management System to automate HR tasks like employee registration, leave management, payroll processing, and performance tracking, which are usually handled manually.– The system is built using full-stack Java technologies: Spring Boot for the backend APIs, Hibernate/JPA with MySQL for database management, and HTML, CSS, and JavaScript (or React/Bootstrap) for the front-end.– I followed the MVC architecture and implemented RESTful services to ensure smooth communication between the front-end and back-end.

ACADEMIC PROJECT

Project Title: Women Security System By Using GPS GSM

Project Description: A Women Security System using GPS and GSM with Command Alert is an embedded system designed to ensure the safety of women by providing real-time location tracking.

Technology Used:

- **GPS Module:** To track the real-time geographic location of the user
- **GSM Module:** To send SMS alerts and/or make calls to pre-saved emergency contacts
- **Microcontroller:** (Arduino Uno / Node MCU / Raspberry Pi) The brain of the system: processes input and controls GPS & GSM Modules..

CERTIFICATIONS

- Cloud Computing Virtual Internship from NPTEL in 2024
- Completed a course on "Industrial Automation " from Skill Dzure in 2024.
- Received a Certificate in Cybersecurity from Cisco Networking Academy in 2024.
