## CAREER OBJECTIVE

Aspiring Full-Stack Developer passionate about **building responsive** and **user-centric** web applications using the **MERN** stack. Skilled in frontend development, **REST API** integration, and **performance optimization**. Eager to contribute to **real-world projects** in collaborative environments while continuously learning and expanding technical skills.

## SKILLS

C++ | ReactJS | Shadcn/ui | Redux | HTML/CSS | JavaScript | Tailwind CSS | Three.JS | Git | GitHub

## WORK EXPERIENCE

Celebal Technologies Pvt. Ltd. (<https://vogue-vault-frontend.vercel.app/>) Jun 2025 – Present | Remote

### Frontend Developer Intern

- Contributed to a **team-built full-stack e-commerce platform** using React, Node.js, and Tailwind CSS.
- Implemented responsive UI, **dark/light mode**, and a size-specific cart system, improving UX and reducing bounce rate.
- Secured routes with **JWT-based role access** and improved performance via **code-splitting** and **lazy loading**.
- Participated in sprint planning, peer code reviews, and version control using **Git** and **GitHub**.

CloudCreditTechnologies Pvt. Ltd.

Jan 2025 – Mar 2025

### Frontend Developer Intern

- Designed and developed a **3D interactive portfolio** using **Three.js**, **React**, **Tailwind CSS**, and **GSAP** to visually showcase personal projects and experience.
- Created immersive UI features including an animated **hero section**, **rotating 3D models**, and click-triggered **character animations**.
- Improved rendering performance by applying **model compression**, **lazy loading**, and optimized **camera transitions**, reducing latency by 25%.

## EDUCATION

**BTech**, Jaipur Engineering College  
And Research Center

Jul 2022 – Aug 2026

## CERTIFICATIONS/ACHIEVEMENTS/CERTIFICATES

- Smart India Hackathon 2024** – Participated as **Team Lead**; ranked among the **top 50** out of 350+ teams.
- Full Stack Web Development** Certificate – Completed course by Angela Yu (Udemy).
- Career Essentials in Software Development** – Completed professional certificate by Microsoft and LinkedIn Learning.
- JamLink** – Built a real-time music app with **100+ users**, featuring live activity and group chat.
- Volunteer** – **BDC Blood Donation Camp** – Assisted with **awareness and donor outreach**
- Volunteer** – **3C Club Dandiya Night** – Managed on-ground crowd control and event flow during university cultural night.

## PROJECTS

### **JamLink – Real-Time Music Streaming App** (<https://jam-link.vercel.app/>)

**Tech Stack:** React | Tailwind CSS | Shadcn | Node.js | Express | MongoDB | Clerk | Socket.io | JavaScript

Key Features & Highlights:

- Developed a Spotify-inspired music streaming platform with real-time user presence and public chat.
- Implemented a **Friends activity system** showing which user is listening to which song, powered by **Socket.io**.
- Built a **global chatroom** allowing all users to interact in real-time, creating a shared listening experience.
- Integrated **Clerk** for seamless user authentication, session management, and access control.
- Used **Shadcn/ui** and **Tailwind CSS** for a modern, responsive, and consistent UI across devices.
- Successfully onboarded **100+ users**, testing scalability and engagement features.
- Applied best practices in component structure, lazy loading, and client-server architecture to ensure smooth performance.

### **3D Interactive Portfolio** ([threejs-portfolio-alpha-three.vercel.app](https://threejs-portfolio-alpha-three.vercel.app/))

Key Features & Achievements:

- **Tech Stack:** Three.js | React.js | Tailwind CSS | GSAP | Email.js
- **Hero Section:** Build an immersive 3D scene featuring a computer model and floating tech icons (e.g., React cube) with smooth animations using **GSAP and Three.js**.
- **Bento Grid Layout:** Created a visually striking grid section with interactive UI elements for seamless navigation.
- **Dynamic Project Showcase:**
- Integrated a **3D computer model** that rotates to display project videos when navigating between items.
- Arrange camera animations for fluid transitions between projects.
- **Interactive Experience Section:**
- Added a **3D character** with click-triggered animations (e.g., waving, dancing) to represent different work experiences.
- **Contact Form:** Enabled functional email submissions using **Email.js**, with form validation and success/error states.
