

PROFESSIONAL SUMMARY

As a passionate web developer with 2+ years of experience, I focus on creating responsive and user-friendly websites and web applications. I have experience in front-end development with technologies like HTML5, CSS3, JavaScript, jQuery, and frameworks such as Vue.js. On the server side, I work with Node.js and I am currently practicing and refining my skills in these areas.

EXPERIENCE

2021 - Now

WEB DEVELOPER

The Hindu / India, Chennai

- Designed, developed, and maintained responsive, user-friendly websites to meet business needs.
- Provided ongoing site maintenance, including regular updates, bug fixes, and performance optimization. Collaborated on full-stack web development projects, ensuring seamless integration of front-end designs with back-end functionality.
- Managed hosting, deployments, and version control to ensure uptime and reliability. Implemented SEO best practices and optimized websites for speed and performance.
- Delivered tailored solutions using modern frameworks, CMS platforms, and custom web applications.

2021 - 2021

Coordinator (MIS)

The New Indian Express / India, Chennai

- Worked as an ERP backend data handler, managing and maintaining enterprise resource planning systems with a focus on handling employee data from the HR department.
- Responsibilities included managing employee records, ensuring data accuracy and compliance, performing data migrations, and creating reports to support HR processes such as payroll, performance evaluations, and workforce analytics.

2021 - 2021

Internship

The New Indian Express / India, Chennai

- Collaborated closely with HR teams to streamline data workflows, troubleshoot issues, and implement secure data handling practices, contributing to efficient HR operations and informed decision-making.
