OBJECTIVE

Aspiring Frontend Developer with a strong foundation in HTML, CSS, JavaScript, and modern frontend frameworks like React. Actively building responsive and user-friendly web interfaces through real-world projects. Passionate about UI/UX design, clean code, and performance optimization. Fast learner with strong problem-solving skills, eager to grow technically across frontend and backend technologies while contributing to agile development teams using tools like Git, APIs, and modern frameworks.

EDUCATION

- **Vijaya College** 2020-2023
Bachelor of Computer Application Bengaluru, India
 - CGPA: 7.5
- **Vijaya Bifurcated PU College** 2018-2020
12th Standard Bengaluru, India
 - CGPA: 6.5
- **Vasavi Vidya Niketan Trust** 2016-2017
10th Standard Bengaluru, India
 - CGPA: 6.2

PROJECTS

• Drum Kit [G](#)

- Engineered an immersive drum kit website using HTML, CSS, and JavaScript with a focus on dynamic user interaction through the DOM. Debugged cross-browser compatibility issues and optimized JavaScript code for performance. Maintained clean, modular code using Git and followed basic testing practices.

Dice Game [G](#)

- Developed an interactive Dice Game using HTML CSS and Javascript emphasizing DoM manipulation for dynamic user interaction Demonstrated adeptness in frontend technologies showcasing skills in web development and creating an engaging user interface

Simon Game [G](#)

- Built a fully functional browser-based memory game inspired by the classic Simon Game. Implemented animations, sound effects, and level-based logic using JavaScript and jQuery for improved user experience. Practiced debugging and maintained code using Git for version control. . .

CERTIFICATIONS

- **The Complete Full-Stack Web Development Bootcamp (Udemy)** 2025
Completed
 - Built real-world projects using HTML, CSS, JavaScript, React.js, Node.js, and MongoDB.
 - Covered RESTful APIs, user authentication, and Git for version control.
 - Applied Agile methodology to simulate real-world development cycles
 - **Certificate:** [View](#)

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6), React.js, Bootstrap 5, jQuery
- **Web Development:** Responsive Design, DOM Manipulation, CSS Flexbox, Grid
- **Version Control:** Git, GitHub
- **Core Concepts:** Debugging, Problem Solving, Client-Side Scripting, Web Performance Optimization
- **Backend (Optional):** Node.js, Express.js, MongoDB, RESTful APIs, Python
