📅 2002/04/14

Profile

I recently graduated with a **Bachelor of Technology** in Electronics and Communication Engineering and hands-on experience in Core Java, MySQL, React JS, JavaScript, HTML5, and CSS3. I am adept at developing user-friendly web applications, working in team environments, and learning new technologies. I seek to leverage my technical skills and problem-solving abilities in an entry-level Software Engineering role.

Courses

- 2024/06 – 2024/11
Bangalore,
Karnataka, India
- Java Full Stack Developer**
Besant Technologies
This course provided a comprehensive understanding of **front-end** and **back-end** web development using **Java** and associated technologies. It covered key concepts in building scalable and efficient web applications, with hands-on experience developing and deploying full-stack applications.
- 2023/02 – 2023/07
Kharagpur,
West Bengal, India.
- Principles and Techniques of Modern Radar Systems**
Indian Institute Of Technology Kharagpur

Projects

- 2024/06 – 2024/07
- Project-1:D-Mart E-commerce Platform Development**
-Developed a fully functional e-commerce platform for a fictional company DMart, to provide users with an online shopping experience.
-The platform allows customers to browse products, add items to the cart, and place orders securely, all while ensuring a seamless user experience.
- Customer dashboard and account management.
- Enhance operational efficiency and reduce costs through automated management integration.
- 2024/08 – 2024/10
- Project-2: .Student Management System**
-Developed a Student Management System for educational institutions to manage student data, including personal information, academic records, and course enrollment.
-The system allows administrators to add, update, delete, and search for student records while allowing students to view their grades, schedules, and personal information.
