## PROFILE

---

Aspiring Software Engineer with practical experience in Python, web development, and full-stack technologies like HTML, CSS, JavaScript, and React. Skilled in QA and API testing, with a passion for building real-world solutions and growing in a dynamic environment.

## EDUCATION

---

**Sankalchand Patel University**  
*BTech(Computer Engineering)*

**Visnagar, Gujarat**  
*Graduation Date: Jul 2025*

## WORK EXPERIENCE

---

**StayinFront India Pvt Ltd**

**Gandhinagar**

*Trainee Software Test Engineer.*

*Feb 2025 - May 2025*

- Tested web-based enterprise apps (functional, regression, integration) for stability and performance.
- Designed and maintained test cases, scenarios, and test data from business requirements.
- Reported and tracked bugs in **Spira**, working with devs for resolution.
- Used **SQL** for backend data validation.
- Worked on **EdgeCG CRM**, ensuring module and workflow accuracy.

## PROJECT EXPERIENCE

---

**Ingenious Hackathon (5 Members)**

**Ahmedabad, Gujarat**

*Cloud Funding (FRONT-DEVELOPER)*

*Feb 2023 - Feb 2023*

- Built **responsive, mobile-friendly webpages** using HTML, CSS, and JavaScript, improving mobile performance by 50%.
- Supported **A/B testing** and conversion optimization, increasing sales by 15%.
- Delivered **high-quality front-end solutions** on time with 95% customer satisfaction through team collaboration.

**College Mini-Project (4 Members)**

**Visnagar, Gujarat**

*Calorie Analyzer (Gemini pro API)*

*Jul 2023 - Mar 2024*

- Built a web app using **Google Gemini Pro API** to analyze calorie content in food images.
- Enabled **image upload and prompt-based input** for user-friendly calorie detection.
- Utilized advanced machine learning algorithms provided by the Google Gemini Pro API to accurately identify food items and estimate their calorie content based on visual analysis.
- Optimized for **scalability and speed**, achieving sub-500ms response times under high load.

## CERTIFICATIONS & WORKSHOPS

---

1.Certification Python from HackerRank | 2.Certification C++ from CodeChef | 3.Communication skills TCS iON. 2023 Leaned Importance of Communication | 4.WordPress Coursera 2023 Create a Website Using Wordpress | 5.Web Development 101 From PupilFirst | 6.Certification in Testing From PerfectQA LLP |

## SKILLS

---

**Programming:** Python, JavaScript, C#.

**Web:** HTML, CSS, JavaScript, React,WordPress

**Databases:** DBMS, MySQL

**Tools&Tech:** Git, GitHub, Googling , Prompting, MS-office365

**SoftSkill:** Communication, Presentation, Creativity, Leadership, Critical Thinking, Networking, Problem-Solving
