Professional Summary

Results-driven **Frontend Developer** with **3 years of experience** specializing in **building scalable, high-performance user interfaces** using **React.js, JavaScript, Redux, and Tailwind CSS**. Proven track record of **optimizing workflows, enhancing UI/UX**, and collaborating with cross-functional teams to deliver impactful digital products. Passionate about writing clean, maintainable code, improving system efficiency, and staying updated with **modern web technologies**.

Skills

- **Frontend:** React.js, JavaScript, TypeScript(Basic), Redux, Hooks, HTML, CSS, Tailwind, Material-UI, Bootstrap
- **Backend:** Node.js
- **Tools & Technologies:** Webpack, Babel, REST APIs, Git, Firebase, MongoDB (Basic), AWS (Basic)

Experience

Associate Software Engineer - II [Highradius Technology](#) **Hyderabad, India** 08/2023 - present

- **Engineered** a critical customer token deletion feature within a React-based application, **reducing manual effort by 20%** and **streamlining data security workflows**. (React, Hooks, Node.js, Webpack, Tailwind CSS, Redux)
- **Developed** a universal file extraction web application, **boosting data accessibility** and **cutting manual processing time by 25%**. (React, Node.js, REST APIs, Babel, Redux)
- Spearheaded feature development in **payment processing systems**, leading to a **30% increase in transaction success rate**.
- **Expanded payment options** by integrating diverse methods including credit card, ACH, and Echeck, enhancing user flexibility

Associate Software Engineer - I [Highradius Technology](#) **Hyderabad, India** 07/2022 - 07/2023

- **Optimized** a React + Redux Employee Dashboard, enhancing **data visualization** and **boosting workflow efficiency by 10%**.
- **Architected** scalable frontend applications, **achieving a 20% reduction in page load times** through optimized re-renders and code-splitting, **significantly enhancing user experience**.
- **Collaborated with stakeholders** to identify gaps, define requirements, and translate business needs into scalable features.
- **Streamlined sprint planning & task breakdown**, improving **development predictability by 20%** and ensuring **on-time delivery**.

Software Trainee [Highradius Technology](#) **Hyderabad, India** 08/2021 - 06/2022

- **Built** a fully responsive Employee Dashboard using React and Redux, **facilitating enhanced data visualization and team collaboration**.
- **Contributed actively** to various frontend enhancements based on direct client feedback, **ensuring seamless user interactions**.

Projects

Finance Website(Loan Management Platform) — ReactJs, NodeJS, JavaScript, Postman [Link](#)

- **Designed and developed** a secure loan management platform, empowering users to securely apply for loans and track EMI payments.
- **Optimized UI/UX**, improving user engagement and navigation efficiency.
- Enforced key features like **real-time updates, lead tracking, and agent application forms**.

Chrome UX Report App — React Js, Material UI, Node.js, Axios, Crux API [Link](#)

- **Engineered** a responsive and intuitive user interface with React and Material UI, enabling users to **easily input website URLs and access performance metrics**.
- Implemented a Node.js backend that handles API requests to the **CrUX API**, processes the data, and serves it to the frontend.
- Configured environment variables and **utilized Axios for efficient API communication and data fetching**.

Keep IT(Personal Notes App) — React Js, Tailwind CSS, ES6, Firebase [Link](#)

- Improved a **secure and responsive notes application** allowing users to **save, update, and retrieve personal notes**.
- Integrated **real-time sync functionality** using Firebase, improving data reliability and user experience.

Education

Chandigarh University, Mohali
B.E. Computer Science Engineering

2018 – 2022
CGPA - 7.04
