PERSONAL DETAILS

Date of Birth: 23rd Oct 2000

Languages Known: English & Telugu

Permanent Address: 4-79, Venkatapur, Duggondi, Warangal, Telangana, 506331.

PROFILE SUMMARY

- Proficient in **JavaScript, ReactJS, and Redux**, with hands-on experience in developing dynamic and responsive web applications.
- Skilled in **front-end development** using ReactJS, HTML, CSS, and Material-UI, ensuring seamless user experiences and intuitive UI designs.
- Experienced in **state management** using Redux, optimizing application performance and enhancing maintainability.
- Strong understanding of **RESTful APIs** and integrating front-end applications with back-end services.
- Familiar with **component-based architecture** and best practices for reusable UI development in ReactJS.
- Proficient in **debugging, troubleshooting, and optimizing React applications** to ensure smooth functionality and high performance.
- Experienced in working with **Git and GitHub** for version control and collaborating on team-based projects.
- Skilled in using **Postman** for API testing and debugging to ensure seamless integration between frontend and backend services.
- Knowledgeable in **responsive design principles** and cross-browser compatibility for enhanced accessibility and performance.

WORK EXPERIENCE

Since Oct'22 | **Software Engineer** | [Cadential Technologies](#) | Bangalore

CONA VENDSMART AND VENDPRIME:

- Developed a **responsive web application** using **ReactJS, Redux, HTML, CSS, and JavaScript** to optimize product recommendations and inventory management.
- Implemented **real-time product quantity tracking** to prevent stockouts and ensure efficient vending machine replenishment.
- Designed **downloadable customer sales reports in PDF format** using **JSPDF**, enabling data-driven business decisions.
- Followed **best practices for code maintainability and efficiency**, ensuring long-term scalability and project sustainability.

HHO - HOME HEALTH ORDERS:

- Developed and maintained the **React-based web application** to facilitate seamless interaction between physicians and home health agencies.
- Implemented **user-friendly UI components using ReactJS, Redux, and Material-UI**, ensuring efficient completion and tracking of home health documentation.
- Integrated **API services for electronic document authentication and real-time transaction tracking**, enhancing compliance and billing workflows.
- Optimized performance and responsiveness, ensuring a **smooth user experience across different devices and browsers**.
