## Professional Summary

Aspiring **Software Developer** | **Java Full Stack Developer** with strong expertise in **Core Java, Spring Boot, REST APIs, Hibernate, MySQL, and Frontend technologies (HTML, CSS, JavaScript, Bootstrap)**. Skilled in developing scalable web applications, database management, and implementing end-to-end solutions. Seeking to contribute technical skills, problem-solving abilities, and teamwork in a dynamic development environment.

## Technical Skills

**Languages & Frameworks:** Core Java, Java 8, J2EE, Spring, Spring Boot, Spring MVC, Hibernate, JSP, JDBC, REST API, JavaScript, HTML, CSS, Bootstrap, C++

**Databases:** MySQL, Spring JPA, Relational Data Modeling

**Tools & Platforms:** Eclipse, VS Code, Postman, Apache Tomcat, Git/GitHub

**Soft Skills:** Problem-Solving, Teamwork, Adaptability

## Education

### B.Tech – Computer Science Engineering

MIT College Of Railway Engineering and Research, Barshi | 07/2020 – 07/2023 | CGPA: 8.15

### Diploma – Computer Engineering

MSBTE | 06/2015 – 05/2018 | Percentage: 69%

### SSC

Akkalkot, Solapur, Maharashtra | 06/2014 – 06/2015 | Percentage: 71%

## Projects

### Flight Management System

- Built a comprehensive airline management application using **Spring Boot**.
- Implemented modules for flight scheduling, booking, and passenger management.
- Designed for scalability and efficiency in handling airline operations.

### Digital Menu Card System

- Developed a QR-based digital menu ordering system for restaurants.
- Built **RESTful APIs with Spring Boot**, integrated **MySQL with Hibernate**, and created interactive pages using **Thymeleaf**.
- Improved ordering efficiency and reduced dependency on physical menus.

### Student Management System

- Created a student-course management system using **Spring Boot** and **Hibernate**.
- Designed REST APIs for student registration, trainer allotment, and admin management.
- Developed a relational database schema in **MySQL** and integrated with **Thymeleaf** for user-friendly interfaces.

## Certificates

- Java Full Stack Developer – Cyber Success Training Institute, Pune

## Languages

- English – Professional Working Proficiency
- Hindi – Professional Working Proficiency

- Marathi – Full Professional Proficiency
