## SUMMARY

**Lead Frontend Developer** with **7+ years of experience** in leading teams and delivering **high-impact web applications**. Skilled in **delivering high-performance web solutions** and **driving frontend architecture**, with a track record of **successful project delivery** and **cross-functional team leadership**. Known for guiding teams to **achieve project milestones** on time, optimizing **UI/UX**, and implementing scalable, **performance-driven solutions**.

### Key Highlights:

- **Proven team leadership** in managing frontend teams for **end-to-end project delivery**.
  - Expert in **Angular** (up to version 16) with a focus on **clean code** and **best practices**.
  - Skilled in **mentoring** and **training junior developers** for skill enhancement.
  - Delivered projects for **esports and iaqua**, emphasizing real-time IoT integration.
  - Strong foundation in **agile methodologies** and **collaborative workflows**.
- 

## PROFESSIONAL EXPERIENCE

### Dynasty Gaming & Media

Oct 2021 - Present

#### Lead Frontend Developer

- Successfully **led the development and delivery of an eSports platform across** multiple countries, including **Malaysia, Australia, India**, and now the **Philippines**.
- Spearheaded the creation of a **custom tournament engine** and **dynamic brackets**, enabling seamless **multi-region support** and engaging user experience across platforms.
- Implemented a **modular, reusable library** as part of a **“one-code”** strategy, enabling efficient scalability and consistent functionality across regional platforms.
- Collaborated closely with **cross-functional teams** to ensure smooth project execution and timely launches.
- Focused on **optimizing UI/UX** and **performance-driven frontend architecture** to support high-traffic, competitive gaming environments.
- Contributed to **technical documentation** and **team training**, ensuring knowledge sharing and quality consistency across projects.

### EXALTARE TECHNOLOGIES PVT. LTD.

Sep 2019 - Sep 2021

#### Technical Lead

- Led the **frontend development** for an IoT-based **vehicle and boat tracking system** utilized in **China**, designed to capture and display **real-time data** from IoT devices.
- Spearheaded **data integration** to ensure accurate and efficient **data capture** from connected IoT devices, focusing on reliable **data visualization** for enhanced tracking insights.
- Developed a **responsive, intuitive UI** for tracking and monitoring vehicle and boat locations, improving the **user experience** for real-time monitoring.
- Coordinated with **backend engineers** to optimize data flow, minimize latency, and ensure **seamless connectivity** with IoT hardware.
- Utilized **best practices** in frontend architecture to build a **scalable, secure** solution, adaptable to future requirements and additional IoT integrations.
- Conducted **code reviews** and **mentored junior developers**, enhancing team skills and **maintaining code quality** across the project.

### MEGAMIND SYSTECH PVT. LTD.

March 2017 - Sep 2019

#### Senior Web Developer

- Actively participated in client meetings to define and clarify project scopes, ensuring alignment with client expectations and project objectives.
- Lead a team of 5-6 PHP developers.
- Oversaw scheduling of project milestones and coordinated with clients on any proposed changes or challenges to be overcome.
- Conducted internal training sessions for developers, enhancing their skills and improving team productivity.

## PROJECTS

### Lets Play Live

- **Project Overview:** Developed and maintained the "**Lets Play Live**" platform, a leading online gaming and esports competition site. The platform provides users with an intuitive interface for participating in competitive gaming, managing teams, tracking progress, and viewing live gaming events. Leading frontend development teams, providing guidance, mentorship, and technical direction to ensure successful project delivery.
- **Key Responsibilities:**
  - Led frontend architecture and development for a large-scale **eSports platform** with a multi-country reach, focusing on **scalability** and **user experience**.
  - Collaborated with the design and back-end teams to implement and integrate new features.
  - Optimized the platform's performance, focusing on loading speed and real-time updates for live competitions.
  - Conducted **code reviews** and provided **technical mentorship** to junior developers, maintaining code quality and fostering a collaborative development environment.
  - Delivered enhanced user interfaces for seamless navigation and improved user engagement.
- **Technologies Used:** Angular, HTML5, CSS3, TypeScript, RxJS, API integrations, WebSocket for real-time data updates.

### iAqua

- **Key Responsibilities:**
  - Delivered a comprehensive **admin panel** that provides **detailed reports** on watercraft performance and usage, empowering administrators to make **data-informed decisions**.
  - Developed custom **data visualization** components to clearly represent key metrics, enhancing user experience and facilitating data-driven insights.
  - Collaborated with **backend engineers** to ensure seamless **data capture** and **real-time updates**, minimizing latency and optimizing performance.
  - Collaborated with the **IoT development team** to maintain **data integrity** and **system reliability**.
- **Technologies Used:** CodeIgniter, PHP, HTML5, CSS3

---

## KEY COMPETENCIES

Angular	MONGODB	HTML coding
Node Js	SQL	Javascript
AWS Services	PHP	CodeIgniter
Project Management	Postman	Figma

---

## EDUCATION & CERTIFICATIONS

### **M.Sc Computer Sci.**

Savitribai Phule Pune University

### **B.Sc Computer Sci.**

Savitribai Phule Pune University

## OTHER INTERESTS

**Technology & Innovation:** Passionate about emerging technologies, AI, and automation.

**Gaming:** Interested in PC gaming and exploring game development technologies.

**Reading:** Enjoy reading books on personal development, technology trends, and philosophy.
