## SUMMARY

---

Experienced Frontend Developer with 2+ years of experience crafting performant, responsive web applications using Angular (v14+), React, JavaScript, TypeScript, HTML5 and CSS3. Skilled in RESTful API integration, state management (RxJS, Redux), Agile collaboration, and writing scalable, component-based UI. Proficient in optimizing performance and testing with Jest and Postman. Passionate about delivering high-quality code and user experiences across browsers and devices.

## SKILLS

---

**Languages** : JavaScript(ES6+), Typescript, HTML5, CSS3

**Libraries/Frameworks**: React, Angular, Redux, jQuery, Bootstrap, Material UI

**Testing** : Jest, Qase, Postman

**Build & Debug** : Angular CLI, Webpack, Browser DevTools, Nginx, VS Code

**Version Control & APIs** :Git, GitHub, RESTful APIs, JSON, C# Web APIs

**Cloud / Databases**: SQL Server, Elasticsearch, Azure

## EXPERIENCE

---

### •Wisright Technologies

Jan 2023 - Mar 2025

Software Developer

Chennai

- Developed and deployed **responsive, pixel-perfect web interfaces** with **Angular** and **React**, collaborating with design teams to ensure feasibility of complex UI/UX requirements.
- Optimized frontend performance using **lazy loading, bundle splitting** and efficient state management, reducing **load time by 30%** and improving scalability.
- Authored and maintained **80+ unit test cases** with Jest and regression testing using Postman, ensuring high-quality, **validated user input** and **robust API integrations**.
- Delivered **cross-browser and cross-device compatibility** across Chrome, Firefox, Safari and Edge, following best practices in accessibility, scalable architecture and responsive web design.
- Participated actively in **Agile sprints, code reviews** and **peer mentoring**, ensuring continuous improvement and high team collaboration.
- Integrated **RESTful APIs with C#** backend systems and handled **structured JSON data**, with a focus on validation and error management.
- Created **UI/UX wireframes** and interactive **prototypes with Figma**, ensuring user-centered design and meeting accessibility standards.
- Solved performance bottlenecks through **code refactoring** and **DOM optimization**, demonstrating strong **problem solving skills** and **attention to detail**.

## PROJECTS

---

### • HRMS – University Web Application

2023

/ Angular, TypeScript, HTML5, CSS3, Bootstrap, jQuery, Azure, Git, VS Code

- A Human Resource Management System designed for a university to manage staff engagement, payroll, leave, and administration. Involved in Web development, responsive UI enhancements, API integrations and bug resolution.

### • Centuri – Swedish Document Management Platform

2024

/ ReactJS, HTML5, CSS3, C#, SQL, Azure, Git, Postman, Jest

- A document and task management platform tailored for institutional workflows. Contributed to frontend UI enhancement, bug fixing, and integrated REST APIs. Worked closely with backend developers to ensure data-driven modules functioned seamlessly.

## EDUCATION

---

### •Rajalakshmi Engineering College,Chennai

2022

Bachelor of Engineering in Electrical and Electronics Engineering

Percentage: **82.5%**

### •Daniel Thomas Matriculation Higher Secondary School

2018

Higher Secondary Education, Tamilnadu

Percentage: **86%**

## STRENGTHS

---

- Strong verbal and written **communication skills**.
- Proven ability to deliver **on-time** and **quality-driven results**.
- Fast learner with a passion for **technology adaptation**.
- Proficient in **collaborative teamwork** and **individual accountability**.
