## KEY PROJECTS

**Business Portfolio Website, MacVans DevNest**

**March 2025 - April 2025**

**Tech Stack:** HTML, CSS, JavaScript, Bootstrap, PHP.

- Designed and deployed the official website for MacVans DevNest, a web and app development brand focused on serving local businesses and schools
- The site showcases services, portfolio, and contact forms, providing a modern and responsive user experience.

**Inventory Management System, Parliament of Ghana.**

**November 2024 – January 2025**

**Tech Stack:** HTML, CSS, JavaScript, MySQL, PHP.

- Built a web application to track and manage IT assets, including computers and network devices.
- Integrated features for user management tasks, including login, adding, editing, and deleting records.
- Implemented features for device allocation and maintenance monitoring.

**Tyre Stock Management System, DAMBOAG Company Limited.**

**January 2025 – May 2025**

**Tech Stack:** Django, Django REST Framework, HTML, CSS, JavaScript.

- Developed a scalable inventory and sales management system for tracking vehicle tyre stock across multiple shops.
- The system features user role management (admin, manager, salesperson), automated restock alerts, offline sales recording, and real-time synchronization with the main MySQL database when online.

**E-commerce Website, YARP Foods Company Limited.**

**July 2023 – November 2023**

**Tech Stack:** HTML, CSS, JavaScript, MySQL, PHP.

- Built a professional website to sell flour products online.
- Integrated product catalogs, an order management system, and user-friendly checkout features.

**WORK EXPERIENCE**

**Software and Web Developer**

**January 2021 – present**

**MacVans DevNest, Accra, Ghana.**

- Develop and deploy full-stack web applications, websites, mobile applications and software solutions for clients across industries.
- Collaborate with stakeholders to gather requirements, design scalable architectures, and deliver solutions ahead of deadlines.
- Supervise the assessment of all software and web applications in order to ensure quality and accuracy of the application
- Maintain 100% client satisfaction via iterative feedback loops and post-launch support.

**Application Developer (National Service)**

**October 2024 – present**

**ICT Department, Parliament of Ghana.**

- Design and develop internal tools, including an inventory management system.
- Provide technical support to the staff, ensuring smooth operation applications and services.
- Assist in managing and maintaining network infrastructure, including hardware and software troubleshooting.
- Collaborate with the IT team on special projects to improve overall system efficiency and security.
- Train staff on the use of IT tools and applications to ensure proper usage in compliance with policies.

**Tutor (Internship)**

**January 2024 – April 2024**

**Tanoso Anglican Junior High School, Kumasi, Ghana**

- Taught computing to junior high school students, focusing on programming basics and introducing them to cybersecurity awareness.
- Developed and implemented lesson plans for computing class, fostering an interactive classroom environment.
- Assessed student performance through assignments and tests, providing feedback to encourage growth.
- Adapted teaching methods to accommodate diverse learning styles and abilities.

**Tutor (Part-Time)**

**August 2020 – April 2022**

**Artland Ghana, Kumasi City Mall, Ghana**

- Taught Information Communication Technology (I.C.T) and basic computing.
- Raised student interest in computing and encouraged positive use of computer tools.
- Held conferences with parents to address issues, discuss academic progress, and encourage learning goals among their wards.
- Encouraged student critical thinking and discussion using a variety of teaching techniques.
- Supervised students throughout the day, both in the classroom and outside during breaks.

### **LEADERSHIP EXPERIENCE**

**National Union of Ghana Students (NUGS), President**

**August 2023 – July 2024**

**Akenten Appiah-Menka University of Skills Training and Entrepreneurial Development.**

- Spearheaded student leadership initiatives, representing over 30,000 students at the university council.
- Organized events, forums, and workshops to empower students and enhance their academic experiences.
- Collaborated with the university administration to address student concerns and challenges.
- Led initiatives promoting student welfare and development, including technology adoption campaigns.

**Ghana National Association of Adventist Students, Executive Secretary**

**September 2022 – August 2023**

**Akenten Appiah-Menka University of Skills Training and Entrepreneurial Development.**

- Oversaw administrative tasks, including record-keeping, meeting coordination, and correspondence.
- Managed records and enhanced operational efficiency through IT solutions.
- Maintained effective communication between church leadership and members, ensuring timely dissemination of information through online platforms such as WhatsApp, Telegram and Facebook.
- Organized and managed events, programs, and meetings, contributing to running church operations and activities smoothly.
