---

## SUMMARY

---

A highly motivated and quick-learning entry-level computer science graduate eager to apply foundational knowledge in software development, algorithms, and data structures. Proficient in programming languages like python and c++, with a strong analytical and problem-solving aptitude. Collaborative team player seeking a challenging role to contribute technical skills and a passion for innovation in a dynamic tech environment. Ready to learn and grow within a forward-thinking organization

---

## PROJECT

---

### cloud-based -vedio -editing

AWS(amazon web service) · [github.com/Grillinn](https://github.com/Grillinn)

- Utilize AWS EC2 instances to run video editing software remotely.
- Leverage Amazon S3 for storing and accessing video files.
- Employ AWS Elemental MediaConvert for transcoding video formats.
- Potentially integrate the OpenShot Cloud API for programmatic video editing
- Explored integration of OpenShot Cloud API into the cloud-based video editing platform to facilitate automated video processing and enhance editing capabilities.

### Movie -recommendation-system with collaborating- filtering

[github.com/Grillinn](https://github.com/Grillinn)

- Engineered a movie recommendation system using collaborative filtering techniques, which increased user engagement and satisfaction by delivering personalized content recommendations.
  - **User-Based Similarity** : Identifies users with similar movie rating patterns.
  - **Item-Based Similarity**: Finds movies that are rated similarly by different users.
  - **Prediction Generation**: Recommends movies that similar users liked (user-based) or movies similar to those the user liked (item-based).
  - **No Feature Engineering**: Relies solely on user-item interaction data (ratings) without needing explicit movie content analysis.
- 

## EDUCATION

---

### computer science and business system(CSBS)

Institute of engineering and management · kolkata · 2026 · 8.54

---

## CERTIFICATIONS

---

### productivity hacks for marketing efficiency

LINKEDIN · 2025

- Automate tasks, prioritize high-impact work, and batch similar activities. Use time blocking and minimize distractions for focused execution. Leverage templates and project management tools for streamlined workflows and better team collaboration. Regularly analyze performance to identify and eliminate inefficiencies, boosting overall marketing productivity.

### office master in power BI

OFFICE MASTER authority · 2024

- Power BI visualizes movie data and recommendation results. It aids in exploratory analysis of user ratings and helps present top movie recommendations in an understandable format. While not implementing the algorithm, it's crucial for data understanding and outcome presentation.
- 

## SKILLS

---

HTML, SQL, C++, PROBLEM SOLVING TECHNIQUE,POWER B.I, MICROSOFT Office ,AI - PROMPT,VERSION CONTROL(git), AWS(amazon cloud service),MATLAB
