Career Objective

Cybersecurity Analyst with a Master's degree in Computer Applications and practical internship experience in managing vulnerabilities and deploying patches across enterprise-level IT systems. Skilled in identifying, reproducing, and assessing risks from security vulnerabilities using tools like Tanium, Qualys, Kali Linux, and Rapid7. Experienced in preparing clear remediation reports, tracking issues, and working with different technical teams to fix them. Familiar with industry standards and frameworks such as CVSS, NIST, and MITRE ATT&CK, and comfortable using VDP tools like Hacker One.

Technical Skills

Domain Knowledge: Vulnerability Management, Patch Management

Tools Worked : Qualys, Tanium, Rapid7, Prisma, Blackduck, JAMF

Ticketing Tools : JIRA, Armor Code, Servicenow

Networking : TCP/IP, UDP, DNS, NFS, SSH, DHCP, TELNET

Internship

Medha IT Solutions

Present

Roles And Responsibility

- Managed the complete vulnerability lifecycle from discovery to remediation across enterprise systems, ensuring compliance with SLAs.
- Coordinated patch deployments, including Microsoft Patch Tuesday and urgent updates, using Tanium Patch & Deploy across Windows and Linux environments.
- Triaged vulnerability scan results from Qualys, eliminated false positives, and created custom detection rules for critical assets.
- Prepared and delivered actionable vulnerability reports to cross-functional teams, enabling risk-based prioritization and strategic remediation.
- Scheduled and executed regular and ad-hoc scans using ServiceNow, while maintaining scanner health and asset group integrity in Qualys.
- Collaborated with platform, network, and application teams to resolve patching issues and enforce remediation timelines.
- Documented CERF entries, tracked SLA exceptions, and handled security exception requests to ensure alignment with risk governance and compliance frameworks.

Education

Masters of Business Administration (pursuing) from Sri Sai College of IT & Management , JNTUA 2025.

Declaration

I hereby declare that all the above stated information is true to the best of my knowledge and I bear responsibility for the correctness of the above mentioned.
