## CAREER OBJECTIVE

A highly motivated Software Engineer with three years of experience in developing and optimizing web applications for enhanced performance. Skilled in HTML, CSS, and JavaScript, with a strong emphasis on building responsive, user-friendly interfaces and ensuring seamless cross-browser compatibility. Adept at managing complex projects, collaborating across teams, and mentoring peers to drive innovation and efficiency. Passionate about leveraging cutting-edge technologies and best practices to deliver impactful solutions that streamline processes and enhance user experiences. Excited to contribute expertise to dynamic, forward-thinking projects.

## WORK EXPERIENCE

### Software Engineer

#### Cyncly

📅 June 2022 - current 📍 Pune

- Optimized code and configurable solutions using React.js, with strong development experience in HTML, CSS, and JavaScript.
- Implemented cross-browser compatibility and web optimization techniques using CSS, improving site performance and user experience across major browsers.
- Integrated login functionalities with web applications, utilizing Azure AD, Keycloak, OAuth 2.0, and Azure B2C.
- Developed a Node.js server to integrate the REST API with the client system and implemented Key Vault and Blob storage.
- Created and executed responsive branding strategies for the website, boosting engagement among mobile and tablet users.
- Delivered 24/7 troubleshooting and resolution for high-severity production issues, minimizing downtime and ensuring system stability.
- Performed presales estimations for web application needs, resulting in successful client project proposals.
- Mentored junior developers and interns to enhance their coding skills, leading to better project contributions.

### Trainee Software Engineer

#### Twenty Twenty Interior Design Software Pvt Ltd

📅 December 2021 - May 2022 📍 Pune

- Developed responsive landing pages for the company and clients using HTML, CSS, and JavaScript.
- Debugging and fixing high severity issues in web application.
- Work on improved web and mobile services.
- Participated in Agile development using Scrum methodologies, attending daily stand-ups, sprint planning
- Used Git b for version control, managing codebase efficiently through branching and pull requests.
- Collaborated with the QA team to identify and resolve cross-browser compatibility issues and UI inconsistencies
