WORK EXPERIENCE

Keywords- (AI, Prompt Engineer, CRM, web development, React JS, Problem Solving, UI)

➤ Jr Product Developer (Fristine Infotech - ZOHO Premium Partner | Pune, India)

• Developed and Delivered Applications:

- **Dentisti:** A dental clinic management system with features like role-based access (Admin, Doctor, Receptionist), appointment booking, staff management, and analytics. Built using **React.js**, **Node.js**, and **Zoho Catalyst**, ensuring a user-friendly interface and robust backend architecture.
- cargo and parcel tracking for trucks and ships. Designed with **React.js** and **Node.js**, incorporating automated task assignment and real-time tracking functionality.
- **Axis Finance Page Builder Application:** Developed a dynamic page builder platform for BFSI clients, enabling non-technical users to customize web pages effortlessly. Implemented using **Zoho Catalyst** and **React.js**, providing seamless drag-and-drop features and responsive design.

• Product Development Expertise:

- Proficient in building applications from scratch, managing end-to-end product lifecycles, and delivering high-quality, scalable solutions.
- Integrated **Zoho Catalyst** tools to accelerate development cycles and ensure seamless functionality with Zoho ecosystem products like CRM and Analytics.
- Employed modern technologies such as **React.js** and **Node.js** to create interactive and efficient web applications tailored to business needs.

• CRM Tool Customization and Integration:

- Customized Zoho CRM tools, including Analytics, Desk, and Creator, to enhance data-driven decision-making and improve customer support workflows.
- Incorporated AI features into CRM platforms to optimize user experiences and automate repetitive tasks, driving operational efficiency.

• Project Management and Collaboration:

- Collaborated with cross-functional teams to define project requirements, design application architecture, and deliver solutions on time.
- Ensured seamless communication and integration of product features to meet client-specific needs effectively

➤ **Data Science Inten (1Stop.Ai | Bangalore, India)**

- Led predictive analytics project using Python and R, collaborating across teams for data-driven solutions, enhancing customer engagement.
- Proficient in SQL for seamless data integration, ensuring quality through preprocessing and
- feature engineering techniques. Applied statistical analysis and inference to validate insights, supporting informed decision-making processes.
