EDUCATION

Maharshi Dayanand University

Bachelor of Technology in Computer Science

Haryana, India

Aug. 2021 – May 2025

EXPERIENCE

Python developer Intern

My Next Film

2022 – 2023

New Delhi, India

- Developed and maintained Python-based applications, tools, and systems, ensuring that they met the requirements of the project or organization.
- Wrote clean, efficient, and maintainable code in Python programming language, ensuring that it met coding standards and best practices.
- Tested and debugged code to ensure that it met requirements and was free of errors
- Wrote technical documentation for applications, tools, and systems to ensure that they were easy to understand and maintain.
- Maintained and updated existing applications, tools, and systems to ensure that they remained relevant

Backend developer Intern

Metromax Group

2023 – 2024

Bengaluru, India

- Played a pivotal role in the development of new features, consistently delivering high-quality and scalable code to enhance the application's functionality
- Collaborated closely with the product team to understand requirements and translate them into technical specifications for feature implementation.
- Built and deployed 5+ backend APIs in Django to support logistics workflows, improving delivery scheduling speed by 30%.
- Worked closely with front-end developers to integrate new functions seamlessly into the user interface, ensuring a cohesive and user-friendly experience
- Conducted thorough testing of newly developed features, identifying and resolving issues to ensure a stable and reliable product.

PROJECTS

Warehouse | *Python, Django, HTML, CSS, Javascript*

- Warehouse is a comprehensive Warehouse Management System built with Django. It handles various functionalities like managing shipments, client products, calculating costs, and generating necessary documents such as shipment labels and PDFs.
- Features: Shipment Management, Cost Calculation, Product Management, Document Handling

Portfolio website | *Python, Django, Bootstrap*

- Showcased professional background, skills, and projects with a clean and responsive design, enhancing user experience across devices.
- Implemented User Authentication: Incorporated secure login and registration features to manage access, utilizing modern web authentication practices.
- Integrated Google Maps API: Embedded interactive Google Maps to provide location-based information, enhancing site functionality and user engagement.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL (PostgreSQL), MongoDB

Frameworks: Django, Flask, WordPress, FastAPI

Developer Tools: Git, Docker, Google Cloud Platform, VS Code, PyCharm
