

MANGALAM SRIVASTAVA

CYBERSECURITY ANALYST

OBJECTIVE

Dedicated Cybersecurity professional with expertise in vulnerability assessment, penetration testing, threat detection, and malware analysis. Seeking to leverage technical proficiency to enhance organizational defenses in the cybersecurity domain.

INTERNSHIP EXPERIENCE

Offensive Security Intern

CyberSapiens, Mangalore, India | Jan 2025 - Present

- Engaged in Certified Ethical Hacker, covering penetration testing, techniques and exploit reporting.
- Excelled in practical web security challenges by solving Portswigger labs, focusing on real-world vulnerabilities.
- Learned API & Mobile security fundamentals, authentication flaws, impacts, testing and mitigations.
- Working on VDP targets, identifying, reporting bugs and collaborating with the community to strengthen cyber defenses.
- Awarded as "Best Performer – May 2025".

Information Security Intern

Amroha Police Department, Uttar Pradesh | June 2025

- Participated in a hands-on cyber internship focused on real-life investigations, evidence collection, mobile/iOS forensics and dark web.
- Learned FIR-to-evidence workflows, cyber laws, and forensic techniques from experts like Dr. Rakshit Tandon, Dr Deepak D3 Forensics, Saumay Srivastava, and Dr. Ooppss.
- Enlightened with law enforcement on practical case scenarios and gained exposure to forensic tools and protocols used in policing.

Cybersecurity Intern

Edunet Foundation, Bengaluru, India | Jan 2025 – Feb 2025

- 6 weeks Internship in collab with I.B.M. Skillsbuild and A.I.C.T.E.
- Worked on project "Secure Data Hiding using Steganography".
- Developed and Implemented encryption and decryption within image files preventing sensitive data breach, enhancing data security.

EDUCATION

Masters Of Computer Application (Cybersecurity) | 2025-2027

JECRC University, Jaipur, India

Bachelors Of Computer Application | 2021-2024

Babasaheb Bhimrao Ambedkar University, Lucknow, India

PROJECTS

Security Header Analyzer

- Web-based tool that helps users analyze the security headers of any website.

Secure Data Hiding

- Steganography Tools that securely hides and extracts data within images.

ACHIEVEMENTS & CERTIFICATES

- Tata Group – Cybersecurity Analyst Job Simulation| **Forage**
- Geo-data sharing and Cyber Security| **I.S.R.O.**
- Cybersecurity Fundamentals | **I.B.M.**
- "HackJMI2025" – Participated Built a Web Header Analyzer Tool for detection of missing and weak security headers.
- "CODE@BBAU1.0" – Participated in University Hackathon tackled 12 out of 15 challenges, demonstrated skills in problem – solving.

PERSONAL DETAILS

- Nationality: Indian
- Languages: English | Hindi

SKILLS

- V.A.P.T. (Web, Api, Mobile)
- Threat Hunting & Intelligence
- Reporting & Documentation
- Agile Mindset & Adaptability
- Conflict Resolution
- Multitasking & Efficient

KNOWLEDGE

- CIA triad
- ISO 27001:2013
- PCI DSS, HIPAA, NIST
- OWASP Top 10
- Cryptography & Hashing
- Security Controls, GRC
- Risk Management
- Data Privacy, GDPR
- CyberAttacks
- Data Breaches

TOOLS

- Penetration Testing – Burp Suite, OWASP ZAP, SQL Map, XSS Strike, Postman
- Nmap, Wireshark, QUALYS
- OSINT
- O.S. - Windows, Linux (kali, Ubuntu, Kodachi), Parrot
