## SUMMARY

Motivated Cyber Security graduate with a strong foundation in security concepts, web technologies, and hands-on tools like SIEM, Splunk, and Burp Suite. I have practical exposure to web application security, data monitoring, and system analysis through internships and certifications. I enjoy learning how systems work, identifying vulnerabilities, and understanding how security incidents are detected and resolved. Known for being detail-oriented, quick to learn, and comfortable working with data, reports, and technical tools in fast-paced environments.

## EDUCATION

<b>Diploma in CSE</b> Sigma Institue of technology	📅 07/2018 - 07/2021	CGPA <b>7.95</b> / 10
<b>B.Tech in Cyber security</b> Parul University	📅 08/2021 - 04/2024	CGPA <b>6.71</b> / 10

## EXPERIENCE

### Technical Recruiter

SolveNow Inc   📅 07/2025 - 12/2025

- Supported end-to-end recruitment lifecycle including requirement understanding, candidate screening, coordination, and follow-ups.
- Worked closely with UK/India stakeholders to meet daily priorities and delivery timelines.
- Maintained accurate data records, reports, and trackers using Excel.
- Demonstrated strong attention to detail while handling multiple roles and deadlines.
- Built professional relationships through clear and timely communication.

**Key Skills Gained:** Client servicing | Data tracking & reporting | Stakeholder communication | Time prioritisation | Quality ownership

### Web Developer (Internship)

Voldebug Innovations PVT. LTD   📅 01/2024 - 05/2024

Developed and maintained client websites using **WordPress, HTML, CSS, JavaScript, and PHP.**

Worked on real-world projects including **Trutt (E-commerce), Tadpole Academy, and Nia Innovations.**

Gained hands-on understanding of **web application architecture, user authentication flows, and backend logic.**

Identified and fixed functional and security-related issues during development and maintenance.

Monitored website traffic, user behavior, and performance metrics using analytics tools.

Supported data-driven improvements while ensuring secure coding practices.

**Key Skills Gained:** Web attack surface understanding | Secure development awareness | Data analysis | Issue identification

## LANGUAGES

English ,Hindi ,Gujarati

## SKILLS

### Security Operations & Detection

SIEM Fundamentals

Log Monitoring & Analysis

IDS / IPS Concepts Splunk (Beginner)

Wireshark (Basic packet analysis)

Nmap (Basic network scanning)

Burp Suite (Web traffic & vulnerability understanding)

Kali Linux (Beginner)

Incident Documentation & Reporting

### Programming, Web & System Basics

Python

HTML

CSS

JavaScript

WordPress

Kali Linux

TCP/IP

HTTP/HTTPS

Microsoft Excel (Reporting & Trackers)

### Soft Skills

Communication

People Skills

Client Servicing

Organisation

Attention to Detail

Time Management

Ownership Mindset

Quick Learner.

## TRAINING / COURSES

### Ethical Hacking Essentials (EC-Council)

Introductions to Internet of Things - NPTEL.

Web Development - Vataliya Soft-Tech Computer Education
