INTERNSHIP

Web Design & Development

App Exert Labs – June 2023

Developed and maintained responsive web applications using HTML and CSS, while enhancing user experience with interactive JavaScript features. Collaborated with the team to implement design improvements, optimize performance, and ensure seamless functionality across devices.

PROJECT

Eco Roam Poultry Automation | HTML, CSS, IoT

Developed a web-based automation system integrating IoT sensors to monitor and control poultry farm operations. Enabled real-time data-driven decisions to improve farm efficiency and productivity. Recognized as one of the Best Projects in the Department.

Supermarket CRM Project | Salesforce Developer (Trailhead)

Built and customized a Supermarket CRM application in Salesforce Developer Org to streamline workflows and automate business processes. Improved efficiency by configuring objects, fields, and workflows to support supermarket operations.

CERTIFICATES

- Google Cloud: Cloud Computing and Gen AI (Level 3)
- AWS: Cloud Foundations
- TCS iON Career Edge: Young Professional
- GUVI:Neural Network Deep Learning
