### CAREER SUMMARY:

---

Full Stack Web Developer with expertise in front-end (React, Next.js) and back-end (Node.js, Express). Skilled in building scalable applications, API development, and cloud deployment. Passionate about clean code, performance optimization, and problem-solving.

### WORK EXPERIENCE:

---

PSIT Startup & Incubation Foundation (PSIT SIF)

Web Developer | 2024-2025

- Designed and developed the official website for PSIT Startup & Incubation Foundation (PSIT SIF) using Next.js and Node.js..
- Enhanced front-end UI with React and Next.js for a seamless user experience.
- Built a responsive, user-friendly interface to showcase startup initiatives and incubation programs.
- Collaborated with a team to implement new features, resolve bugs, and maintain site reliability.

### RELEVANT PROJECTS:

---

Crave – Food Delivery App (Next.js + APIs)

- Built a customer-facing food delivery app using Next.js App Router and API-only backend (no database).
- Fetched live data from a Google Sheet simulating real restaurant listings.
- Integrated Google Authentication for secure user login.
- Designed a clean, responsive UI with cart and checkout flow.

SketchBox – UI Component Generator (Next.js + Prompt API)

- Created a prompt-based tool to generate React UI components using custom APIs.
- Developed with Next.js, supporting dynamic, real-time component previews.
- Added Google Auth for user authentication and session management.
- Focused on a minimal, intuitive UX for rapid prototyping.

### SKILLS:

---

- Programming Languages: C, C++, Java, Python, JavaScript, TypeScript, PowerShell
- Front-End Development: HTML5, CSS3, React, Next.js, Vite, TailwindCSS, Bootstrap
- Back-End Development: Node.js, Next.js
- Version Control & Collaboration: Git, GitHub
- UI/UX Design & Prototyping: Figma

### EDUCATION:

---

2023 – 2027 | Pranveer singh institute of technology

Bachelor of Technology in Computer Science & Engineering (AI & ML)
