

I am a highly skilled Web Designer and Frontend Developer with over 5+ years of experience in designing, developing, and maintaining responsive, scalable, and user-friendly web applications. I have successfully worked on eCommerce platforms, corporate websites, ERP systems, and enterprise solutions, combining strong design sensibilities with technical expertise.

WORK EXPERIENCE

Web Designer

QwikGig Tech Solutions

October 2024 - Present

- Developed and maintained responsive web interfaces using HTML5, CSS3, and JavaScript.
- Implemented Tailwind CSS and Bootstrap frameworks to deliver consistent, mobile-friendly layouts.
- Built reusable React.js components to improve scalability and reduce development time.

Web Designer

AcmeIn Tech

March 2021 - August 2024

- Designed and developed modern, SEO-friendly websites using HTML5, CSS3, and jQuery.
- Customized Bootstrap templates and implemented Tailwind CSS for a consistent design system.
- Integrated JavaScript functionality for dynamic content and improved user engagement.
- Created clean, reusable SASS styles to streamline the design workflow and maintain code efficiency.

Web Designer

Cedcross Technologies

January 2020 - Nov 2020

- Built and customized Shopify and WordPress themes using HTML, CSS, JavaScript, and Liquid.
- Developed interactive and reusable React.js components for internal web applications.
- Collaborated with cross-functional teams to deliver user-centric and high-performing web solutions.
- Implemented advanced animations and transitions using CSS3 and JavaScript for engaging UI.

2011-2012 | Percentage: 87.33

PROJECTS

Net Solicitors - Client Onboarding & Claims Portal

Tech Stack: HTML5, CSS3, Bootstrap, JavaScript, Git

Role: Web Designer

Developed and design a secure web portal for UK-based law firm Net Solicitors to streamline client onboarding for mis-sold motor finance claims. The system enables users to check eligibility, submit finance details, and track claim progress with real-time validations.

Key Contributions:

- Designed and developed responsive and visually appealing web interfaces using HTML5, CSS3, Bootstrap, Tailwind CSS, and SASS.
- Built interactive, dynamic components and reusable UI elements using React.js and JavaScript.
- Converted Figma/PSD designs into pixel-perfect, SEO-friendly, and cross-browser compatible websites.

Beardo - Men's Grooming E-commerce Platform

Tech Stack: HTML5, CSS3, JavaScript, Shopify, Liquid, Figma

Role: Web Designer

Developed and maintained Beardo's e-commerce website, ensuring a consistent and premium brand experience across all devices. Focused on user experience and responsive design to support smooth customer journeys and improved conversions.

Key Contributions:

- Created and customized product, collection, and landing pages using Shopify's Liquid templating engine.
- Designed responsive layouts and optimized UI components using HTML, CSS3, and JavaScript.

Unbottle - Sustainable Personal Care E-commerce

Tech Stack: HTML5, CSS3, JavaScript, Shopify, Liquid, Figma

Role: Web Designer

Built a fully responsive Shopify-based e-commerce site for Unbottle, focused on delivering a clean, eco-conscious brand identity. Optimized the user experience for browsing, selecting, and purchasing sustainable personal care products.

Key Contributions:

- Developed custom product, collection, and landing pages using Shopify and Liquid.
- Handled layout, color schemes, and typography to align with the brand's eco-friendly values.
- Integrated third-party apps for subscriptions, reviews, and loyalty programs.
- Ensured responsive performance across mobile, tablet, and desktop devices.
