Summary

Computer Engineering graduate with expertise in Java, Spring Boot, React, and SQL. Hands-on experience in developing applications with authentication, database management, and RESTful APIs. Passionate about building scalable web solutions, optimizing performance, and solving complex technical challenges.

Skills

Languages: Java, C, C++

Frameworks: Spring Boot, Hibernate, Spring Security, React

Databases: MySQL, MongoDB Atlas

Tools: Jenkins, Git, Postman, Eclipse, Visual Studio, Maven

Concepts: REST API, Microservices, MVC Architecture, Operating Systems, DSA, DBMS, OOPs

Cloud/DevOps: CI/CD pipeline, Azure DevOps, SCM, Agile/Scrum

Experience

Intern

Mar 2025 – Jun 2025

Mahindra Sanyo Special Steel Pvt. Ltd.

- Developed and updated the company's official website, adding new features and improving UI elements.
- Provided technical support and maintenance, including content updates and bug fixes.
- Assisted in troubleshooting and IT operations during live website deployments.

Projects

Farmer Support System | [Live Link](#) | [GitHub](#)

Jul 2025 – Aug 2025

- Developed a Farmer Support System with modules for registration, weather updates, government schemes, expert consultation, equipment rental, and crop selling.
- The backend is Spring Boot with JWT security, the database is MongoDB Atlas, and the frontend is React.
- I integrated OpenWeatherMap, Twilio, and OpenAI chatbot to provide real-time multilingual support.

Healify | *Seamless Health Consultation Booking Tool* | [Live Link](#) | [GitHub](#)

Jan 2025 – Feb 2025

- **Tech Stack:** React.js, Node.js, MongoDB, JWT, Tailwind CSS, Axios.
- Developed a health consultation platform enabling patients to register, browse doctors, and book appointments.
- Built secure authentication with JWT and implemented role-based dashboards for patients, doctors, and admins.
- Integrated MongoDB with Mongoose models and created RESTful APIs with Express.js for structured data handling.
- Added online payment gateway and analytics modules to improve system performance and user experience.

Indian Tour and Travel Pvt. Ltd. | [GitHub](#)

Nov 2024 – Jan 2025

- Developed a secure tour booking system using Java, J2EE, Spring Boot, ReactJS, and MySQL.
- Features: secure login, search tours, book tours, billing, and integrated payment gateway.
- Improved communication between customers and the travel agency with a reliable web-based solution.

Education

Bachelor of Engineering in Computer Engineering

Nov 2022 – Jun 2025

D. Y. Patil College of Engineering, Pune

CGPA: 7.83 / 10

Diploma in Computer Engineering

Nov 2020 – Jun 2022

D. Y. Patil Polytechnic, Pune

Percentage: 73%

Certifications

Full Stack Developer – .NET Core | [Certificate](#)

- Completed a Full Stack .NET Developer certification from Seed Infotech, including industrial training in ASP.NET Core, Web API, and MVC.
