PROJECTS

Real-Time Face gesture Recognition for Target Locking and Weopan Launching

- Developed a real-time face gesture recognition system using OpenCV and TensorFlow. The system detects facial gestures through a webcam, locks onto a target, and performs specific actions such as firing a weapon based on recognized gestures. Utilized a Convolutional Neural Network (CNN) for gesture classification and implemented real-time video processing for seamless interaction.

INTERNSHIPS

Intern at Dhurga tech company.

- During my internship at Dhurga Tech Company, I gained hands-on experience developing and testing Java applications, helping to improve code quality and identify bugs.

DECLARATION
