PROFESSIONAL SUMMARY

Versatile Software Engineer with 2+ years of experience developing web applications using PHP, JavaScript, Laravel, React.js, and Node.js. Specialized in e-commerce integrations and performance optimization with proven success reducing response times and enhancing user experiences.

WORK EXPERIENCE

Software Engineer

April 2023 – April 2025

Webkul Software

Noida

- Developed Laravel-based solutions for **Bagisto**, improving scalability and performance.
- Built and optimized **WordPress plugins** with PHP and React.js, enhancing WooCommerce integrations.
- Worked on **Shopify-WooCommerce and eBay-WooCommerce connectors**, improving data synchronization and automation.
- Developed and maintained **internal company projects** using **Node.js & React.js**, optimizing backend services and frontend UI.
- Collaborated closely with **cross-functional teams** to ensure smooth project delivery and troubleshooting.
- Contributed to **code reviews, documentation, and team mentorship**, ensuring best coding practices.

PROJECTS

Bagisto (PHP, Laravel, Vue.js, MySQL)

- Developed **standalone functionalities** for the **core team of Bagisto**.
- Created **multiple Laravel packages**, including **Buyer-Seller Chat, Multi-Vendor Marketplace**, and advanced **payment gateway integrations**.
- Led efforts in optimizing **database queries**, reducing response time by **30%**, and improving overall performance.
- Designed and implemented **Vue.js & Tailwind CSS UI components**, ensuring a modern and responsive user experience.
- **Project Link** - <https://github.com/bagisto>

WordPress Plugins (PHP, React.js)

- Built and optimized **WordPress plugins** with **React.js**, increasing usability and performance.
- Developed **Shopify-WooCommerce Connector**, enabling seamless synchronization of products, orders, and customers between platforms.
- Developed **eBay-WooCommerce Connector**, automating the **listing, inventory management, and order processing** between WooCommerce and eBay.
- Plugins link - <https://codecanyon.net/user/webkul/portfolio>

Internal Projects(Node.js , React.js)

- Worked on various **company internal projects** using Node.js & React.js.
- Developed **RESTful APIs** and integrated **real-time communication** using **Express.js & Socket.io**.
- Designed and optimized **React.js UI components**, reducing component re-rendering and improving **frontend performance**.
- Implemented **JWT-based authentication**, improving security and access control across multiple applications.
- Enhanced logging, debugging, and monitoring mechanisms, ensuring **high availability and reliability** of applications.

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, HTML, CSS

Frameworks & Libraries: Laravel, React.js, Node.js, Vue.js, Express.js, Redux, Socket.io

CMS & E-commerce: WordPress, WooCommerce, Bagisto, Shopify, eBay Integration

Development Tools: Git, Docker, VS Code, MySQL, RESTful APIs, JWT Authentication

EDUCATION

Manipal University

MBA in IT and Fintech

Jaipur

Pursuing

Ambalika Institute of Management and Technology

B.Tech in CSE

Lucknow

August.2019 – October.2022

Feroze Gandhi Polytechnic

Diploma in Information Technology

Raebareli

August.2016 – August.2019
