SUMMARY

Dedicated and detail-oriented Associate Software Developer with 6 Months of experience in Front-end development, seeking a challenging position to contribute my skills in software development and enhance my expertise.

PROFESSIONAL SUMMARY

- Strong understanding of UI flow, screen logic, and workflow architecture with a focus on responsive and user-friendly design.
- Proficient in working with existing frameworks and enhancing them by building clean, reusable, and modular components.
- Good knowledge of the full development lifecycle including requirement analysis, development, testing, and deployment.
- Self-motivated team player with solid analytical and problem-solving skills, committed to continuous learning and improvement.

WORK EXPERIENCE

Agathysya Technologies PVT, LTD

Nav 2024 - Apr 2025

Trainee Software Engineer

Nav 2024 - Jan 2025

- Gained foundational knowledge of AngularJS, including Components, Directives, Route guards, Pipes and lifecycle hooks.
- Developed reactive forms using Angular's FormGroup and FormControl, implementing both reactive and template-driven validations to ensure accurate and efficient user input handling.
- Utilized Angular Material UI components to build responsive and visually consistent interfaces.
- Learned and applied Tailwind CSS for creating clean, utility-first, and responsive UI layouts across the application.
- Ensured code stability and collaboration by maintaining version control using Bitbucket.

Associate Software Engineer

Feb 2025 - Apr-2025

- Developed dynamic and responsive UI components using AngularJS and styled them efficiently with Tailwind CSS to ensure consistent design across the application.
- Collaborated with cross-functional teams to consume and display data from RESTful APIs, improving frontend-backend integration and user experience.
- Collaborated with designers using Figma to implement pixel-perfect UI, resulting in a 30% reduction in design-to-development time.

PROJECTS

Environmental, Health and Safety (Angular JS)

Jan 2025 - Apr 2025

- Contributed to the development of a comprehensive audit process management system focused on Environment, Health, and Safety (EHS) compliance.
- Implemented complex form validations with conditional logic based on dynamic audit statuses to ensure accurate data capture.
- Created interactive bar charts and pie charts using ECharts for audit analytics and visual reporting.
- Developed and integrated file upload modules using APIs to support document submission for audit entries.
- Implemented role-based permission control to manage visibility of sidebar modules and page access.
- Used Tailwind CSS for designing responsive, modern UI layouts adaptable across devices.
- Maintained codebase in Bitbucket and contributed to version control, debugging, and build deployments.

Pallet Management (Angular JS)

Nov 2024 - Dec 2024

- Worked on **Return Invoice Generation** module to streamline the reverse logistics process.
 - Implemented Contract Period Comparison feature to support accurate creation of customer orders.
-

EDUCATION

2021 - 2023

GRADUATION

Bachelor of Engineering

Jain College of Engineering - Belagavi

72%

ADDITIONAL INFORMATION

- **Technical Skills:**
 - **Frontend Frameworks:** AngularJS, React.js
 - **Programming Languages:** JavaScript, HTML, CSS
 - **Styling Tools:** Tailwind CSS, Angular Material
 - **Source Control:** Git, GitHub, Bit bucket
 - **Tools:** Visual Studio Code, postman, insomnia
- **Languages:** English, Kannada, Hindi
