Objective Enthusiastic first-year Computer Science student specializing in Artificial Intelligence and Machine Learning, seeking an internship opportunity as a Full Stack Developer. Eager to apply strong foundational knowledge in both frontend and backend technologies—including Python, JavaScript, SQL, and modern frameworks like React—to real-world development projects. Passionate about building responsive, user-friendly web applications and gaining hands-on experience across the software development lifecycle. Committed to continuous learning, contributing to impactful solutions, and collaborating effectively in a team-driven environment.

Education **Higher Secondary Education**
Infant Jesus School, Patna, Bihar

Bachelor of Technology (B. Tech) in Computer Science, AI & ML Specialization
JECRC University, Jaipur, Rajasthan
2024-2028

Skills

Programming Languages: C, Python, C++, HTML, CSS
Backend Development: SQL, Python (Flask)
Other: SEO, Website Hosting

Web Development: HTML, CSS, WordPress, Wix, React.js, Vue.js

Experience **JobReady AI (Ongoing)**

- Developed a personalized AI-powered platform that guides users to become job-ready based on their preferred company and role.
- Features include company-specific skill mapping, preparation plans, resume generation, and interview readiness.
- Utilized Python for backend logic and React.js for a modern, responsive frontend UI.

Doclumin – Full Stack Developer [doclumin.online](#)

- Built and deployed Doclumin, a free, secure, and high-speed online platform for image and PDF editing.
- Implemented tools for AI Background Removal, Compression, Resize, Conversion, Watermarking, PDF Merge/Split etc.
- Engineered using Python (Flask), HTML/CSS, and OpenAI APIs, hosted on a Google Cloud VPS with Gunicorn + Cloudflare Tunnel for persistent uptime.
- Ensured user privacy (no file storage), mobile responsiveness, and instant processing—no sign-up, no watermarks, 100% free.

Web Development & Design Projects

- Created multiple websites using HTML, CSS, and JavaScript with a strong focus on UI/UX.
- Proficient in WordPress and Wix for dynamic and responsive client projects.
- Performed SEO optimization, website hosting, and domain setup to improve visibility and performance.
- Worked with SQL databases for effective backend integration and data management.

Certifications & Workshops

- **C Programming Certificate from Skillsoft Infosys**
- **Data Science 101 – IBM**
Issued Dec 2024
- **Data Science Methodology – IBM**
Issued Dec 2024
- **Introduction to Python – IBM**
Issued May 2025

Objective Statement Seeking a Full Stack Developer internship to contribute to dynamic, real-world projects while enhancing my technical skills in both frontend and backend development. Eager to learn from industry professionals, collaborate in a team environment, and apply my knowledge to build impactful digital solutions.
