# PUNITHRA H M

POWER BI DEVELOPER

## PROFILE

As a proficient Power BI Developer with 2.5 years of hands-on experience, I excel in designing and implementing solutions to enhance business processes. Skilled in data modeling, visualizations and creating user-friendly interfaces. Adept at working with cross-functional teams to gather requirements, manage projects, and ensure the successful deployment of BI solutions. I am committed to meeting deadlines and consistently exceeding expectations. Furthermore, I am a versatile professional, eager to embrace various roles and continuously learn new skills.

## WORK EXPERIENCE

**Tata Consultancy Services - Bengaluru** FEB 2022 - PRESENT

Power BI Developer

- The project focuses on the employee related data and maintains highly valued and developed Dashboards to get the insights at every granular level from employee to organization. It maintains its warehouse in SSMS and uses Power BI for reporting purpose to serve the requirement from different aspects.
- Built data models and Data sets, created tables, views and packages to load the dimension and fact tables.
- Created and deployed data models for different modules as a source for the reports and Dashboards.
- Developed various Power BI reports and extensively used different visuals, filters, bookmarks, edit interactions etc.
- Established Row Level Security (RLS) in power BI reports.

## PROJECTS

**PwC virtual case study**

- Implemented data quality checks and validation procedures and improved overall data integrity.
- Investigated the data of call center using Excel and SQL and detected rise in call abandonment during lunch hours.
- Conducted comprehensive trend analysis on call center data, processing 8 months' worth of call records.
