## TECHNICAL SKILLS HAVING KNOWLEDGE

Next js, node js, express js, mongo db

## PROJECTS

### **NXZ sound 1.0 - <https://app.nxzsound.com>**

36 Months

- Developed UI design for web and mobile responsiveness for NXZ Sound 1.0 project.
- Implemented Comments section for user interaction and engagement.
- Orchestrated deals and negotiations, integrated ACR Cloud for audio song recognition, enhancing user experience.
- Utilized Context API and various React packages to ensure smooth functioning of the application.
- Introduced 'Add to Queue' feature for tracks and implemented debounce functionality.
- Designed user interface using Material UI and Antd to enhance visual appeal and user experience.

### **Data Driven Safety Scrapers**

12 Months

- Developed Ruby library files to facilitate data extraction from multiple US court websites.
- Created over 100 web scrapers and PDF scrapers to automate data retrieval process, resulting in a significant reduction in manual effort.
- Demonstrated proficiency in writing Regex and Xpath, ensuring accurate and efficient data parsing.
- Adhered strictly to DRY (Don't Repeat Yourself) principles, promoting code reusability and maintainability.

### **Legal Plex - <https://legalplex.com/>**

18 Months

- Developed UI design for web and mobile platforms ensuring responsiveness and intuitive user experience.
- Integrated APIs and implemented functionalities to streamline access to contact information of individuals involved in Traffic, Criminal, and Civil Cases for US Attorneys.
- Utilized third-party libraries such as Material UI and Antd to create efficient and user-friendly forms for data collection.
- Designed mobile-responsive UI using CSS media queries, ensuring seamless user experience across devices.
