CAREER OBJECTIVE

To obtain a challenging position in a high-quality engineering environment where my resourceful experience and academic skills will add value to organizational operations and enable me to grow from my experience

WORK EXPERIENCE

Front End Development • Internship

Sep 2024 - Present

MsgKart, Bangalore

- Built responsive user interfaces using Angular and developed comprehensive help pages for the chatbot flow builder to enhance user experience and customer understanding.
- Led the design and implementation of a user-friendly Appointment Booking system for salons and doctors.
- Drove resolution of 100+ UI/UX bugs, significantly improving application stability and performance.
- Learnt and applied Angular concepts such as routing, form validation, API integration, and state management in real-world projects.

EDUCATION

Bachelor of Technology (B.Tech), Information Science Engineering

2021 - 2025

Reva University

CGPA: 8.00/10

Senior Secondary (XII), CBSE

2021

DAV Public School

Percentage: 65.00%

Secondary (X), ICSE

2019

St. Francis School, Deoghar

Percentage: 80.00%

TRAININGS / CERTIFICATIONS

NodeJs

Dec 2024 - Feb 2025

Etrain Education, Bangalore

PORTFOLIO

[GitHub link ↗](#)

PROJECTS

[Personal Portfolio ↗](#)

Mar 2025 - Apr 2025

- Designed and developed a fully responsive personal portfolio website to showcase projects, skills, and contact information using HTML, CSS, and JavaScript.
- Implemented smooth scroll, typing animation, and interactive navigation for an engaging user experience.
- Organized content into dedicated sections like About Me, Projects, Skills, and Contact, with visually appealing layout and custom styling.

[Facebook Clone ↗](#)

Apr 2024

- Built a static clone of Facebook's homepage using HTML and CSS, replicating the layout, design, and responsiveness across devices.
- Implemented interactive features like login form validation and hover effects using vanilla JavaScript for a seamless user experience.
- Focused on pixel-perfect UI design, aligning components such as navigation bars, forms, and footer sections to match the original platform.

Customer Relationship Management (CRM)

Sep 2024 - Present

- Built and enhanced CRM modules using Angular to manage customer data, appointments, and communication workflows efficiently.
- Led the front-end development of key features like Appointment Booking, Customer Profiles, and Dashboard Views for salons and clinics
- Collaborated with backend developers to integrate APIs and drove bug resolution by fixing 100+ UI/UX issues, improving overall system performance.
