

Satyam Gupta

Proactive Software Developer with strong proficiency in Java, SQL, and Data Structures & Algorithms, and hands-on experience in building scalable backend solutions using Spring Boot Microservices. Demonstrates industry exposure in developing robust, high-performance applications, with familiarity in React.js, Docker, and DevOps practices. A continuous learner with a dynamic, challenge-driven mindset, focused on iterative growth and technical excellence. Possesses strong problem-solving skills and a passion for delivering efficient and reliable software systems. Currently working as a Backend Developer, eager to contribute to forward-thinking, innovative development teams.

WORK EXPERIENCE

Finhaat Technologies Pvt. Ltd.

Backend developer

Jan 2025 - Present

Working with Spring Boot Microservices to design, develop, build, and test scalable RESTful APIs. Responsible for creating and maintaining comprehensive Swagger documentation, modifying and optimizing MySQL databases, and implementing robust API security measures—including response encryption—to safeguard data during network transmissions. Gaining practical, hands-on experience in ensuring efficient data management and seamless integration across services in the digital gold, mutual funds, and broking domain.

EDUCATION

Bharati Vidyapeeth Institution of Management and Information Technology

MCA - 8

August 2023 - June 2025

Completed a Bachelor of Science (BSc) in Computer Science, followed by a Master of Computer Applications (MCA), with a strong foundation in Data Structures and Algorithms, Database Management Systems, Software Engineering, Computer Networks, Operating Systems, Web Technologies, and Object-Oriented Programming.

PROJECTS

Uneviling Deception- Fraudulent Analysis [🔗](#)

August 2024 - November 2024

Developed a fraudulent e-commerce dashboard using Microsoft Power BI Fabric, integrating live news via APIs and applying sentiment analysis for real-time insights. Leveraged Microsoft Power BI, Azure Data Factory, and Synapse Analytics for advanced data visualization with ethical considerations.

CERTIFICATE

Programming in Java by NPTEL [🔗](#)

The "Programming in Java" course by NPTEL & IIT Kharagpur covers OOP concepts, exception handling, multithreading, GUI (AWT & Swing), servlets, JDBC, and networking. It equips learners to build secure, platform-independent Java applications.

Accenture Nordics - Software Engineering Job Simulation [🔗](#)

Deloitte Australia - Technology Job Simulation [🔗](#)

SKILLS

Java, SQL, Spring Boot, Microservices, API Development, Docker, Swagger, API Security, Database Management, Oracle, NoSQL, Data Structures and Algorithms (DSA), Problem-Solving, Critical Thinking.

LANGUAGE

English,Hindi,Marathi Superior
