ABOUT ME

Computer Science graduate with a strong interest in full-stack web application development using HTML, CSS, Python, and Django. Experienced in the end-to-end software development life cycle, from requirement analysis and design to testing and deployment. Developed user-focused solutions such as an AI-powered chatbot for a college website and a Chrome extension for summarizing YouTube transcripts. Skilled in debugging, documentation, and automation, with a passion for building scalable tools and continuously improving system performance. Adept at collaborating with cross-functional teams and committed to delivering high-quality, client-ready applications.

Address

Vadakoottu Valappil (H), Chazhiyattiri
