WORK EXPERIENCE

Full Stack Developer

july2023 to Present

@Avenir Innovative Solution Pvt. Ltd, New Delhi

- As a Full Stack Developer with one year of experience, I responsible for developing and maintaining web applications, ensuring seamless integration between front-end and back-end systems.
- I've collaborate with cross-functional teams to deliver high-quality software solutions that meet user needs and business objectives.
- Provided comprehensive technical support for various client-facing applications, ensuring minimal downtime and quick resolution of issues.

Key Responsibilities

1. Front-End Development

- Develop user interfaces using HTML, CSS, and JavaScript frameworks such as React, Angular, or Vue.js.
- Ensure the responsiveness and performance of web applications across different devices and browsers.
- Implement interactive features and functionalities to enhance user experience.

2. Back-End Development

- Build and maintain server-side logic using languages such as Node.js, Python, Ruby, or Java.
- Develop APIs and integrate them with front-end components.
- Manage database interactions and ensure data integrity using SQL and NoSQL databases like MySQL, PostgreSQL, Mongo DB, or Firebase.

3. Full Stack Integration

- Ensure seamless integration of front-end and back-end components.
- Troubleshoot and resolve issues across the entire stack.
- Optimize applications for maximum speed and scalability.
