Cloud: Vercel, Netlify

EXPERIENCE

Frontend Intern at Alphawizz Technology Pvt Ltd , Indore

January 2025 - April 2025

Role - React Developer

Indore, Madhya Pradesh

- Developed responsive and intuitive web interfaces using React.js, HTML5, CSS3, and Bootstrap, ensuring cross-browser compatibility and mobile-first design principles.
- Collaborated with backend teams to integrate APIs using JavaScript (Fetch/Axios), enhancing the functionality and performance of web applications.
- Ensured the application met performance and accessibility standards, providing users with an optimized browsing experience.

PROJECTS

Weather App | HTML5 , CSS3 , JavaScript , React.js , Postman (API testing), REST APIs **Jan 2025**

- Developed a dynamic web application that provides real-time weather data for cities worldwide using React.js. The app includes a 5-day weather forecast and key weather indicators like temperature, humidity, and wind speed.
- Integrated dynamic background images that change based on the current weather condition, improving user engagement.
- **Code:** [GitHub Repository](#) **View Demo:** [Live App](#)

ShopCart Website | React.js, JavaScript, HTML, CSS MySQL,Bootstrap,Node.js,Render

Dec 2024

- Developed a full-stack e-commerce web application using React.js, Node.js, Express.js, and MySQL. Implemented user authentication, product browsing, shopping cart, and payment integration with Stripe for a seamless shopping experience. Ensured responsive design for optimal usability across devices..
