PROFILE INFO

An independent and self-motivated React.js developer with proven experience in building dynamic, responsive web applications. Actively expanding expertise in Node.js and MongoDB to transition into a full-fledged MERN stack developer, enhancing technical proficiency and career growth. Adept at creating user-centric interfaces, implementing modern front-end functionalities, and delivering high-quality, scalable solutions.

EXPERIENCE

Pendio

ReactJs Developer

WebCodeGenie Technology, 12/2023 to Currently Running

- This project leverages React.js, Laravel, and MySQL to develop a platform that enables businesses to efficiently acquire and manage customers. Registered companies can access leads provided by the administrator to execute targeted marketing campaigns, including direct mail, digital promotions, print advertisements, and email marketing for their specific locations. The platform streamlines lead management and outreach efforts, thereby enhancing customer engagement and supporting business growth.

Features : Tab-Wise Navigation, Data Listing with Checkbox Selection, Advanced Forms, Apex Charts Integration, Post Creation for GMB, Reordering with DragNDrop

TruckEase

ReactJs Developer

WebCodeGenie Technology, 08/2023 to 12/2023

- Developed a transport management platform using Node.js and MongoDB to optimize truck loading and package distribution. Admins can manage truck types by capacity and pincode, add packages, and tag them for precise matching. Features include a drag-and-drop interface for efficient loading based on pincode priority and weight, and an automated system for intelligent truck filling with a quick unload option for streamlined operations.

Features: Drag-and-Drop Truck Filling, Pincode and Weight Match Filling, Truck Loading Automation

EDUCATION

2019 - 2023 | Gandhinagar University

Bachelor of Engineering, CGPA - 7.50

2018 - 2019 | Rashtra Bharti Hindi H.S.

H.S.C, 70%

2016 - 2017 | A.V.M Higher School

S.S.C, 90%

LANGUAGES

- Hindi
- English
- Gujarati

SKILLS

- ReactJs
- Redux
- Tailwind / Bootstrap
- HTML
- CSS/SCSS
- JavaScript/JSX
- TypeScript/TSX
- NodeJS
- ExpressJs
- Mongo/SQL (Basic)
- JIRA
- GIT
- NextJS (Basic)
- Python (Basic)

CodersHub

ReactJs Developer

WebCodeGenie Technology, 05/2023 to 08/2023

- Built with Node.js, HBS, React.js, and SQL, this platform streamlines recruitment management for organizations. Features include candidate tracking from multiple sources (placement drives, direct applications), interview scheduling, and managing interview rounds, questions, timing, marks, and options. It also enables assigning interviewers and directly notifying them of their schedules. The system supports multi-organization registration and customization of recruitment workflows.

Features : Tab-Wise Navigation, Data Listing with Checkbox Selection, Advanced Forms, Apex Charts Integration, Post Creation for GMB, Reordering with Drag-and-Drop

SELF INITIATED

Reacture

ReactJs Developer, 06/2024 to Currently Running

- Created with the vision of providing a global architectural template for React projects, Reacture is built with Tailwind CSS, Redux for state management, Formik/Yup for form handling, and ApexCharts for data visualizations. It includes essential features such as basic authentication forms, API integrations, listings, tabs, Drag-and-Drop functionality, popup modals, and page layouts. Designed to streamline development, the template offers both basic and advanced capabilities, making it a versatile solution for any React application.

Features: Tab wise navigation, Data list with checkboxe, Advance forms, ApexCharts data visaulization, DragNDrop

Resume Builder

ReactJs Developer, 02/2023 to 04/2023

- This project allows users to create customizable resumes by selecting from professionally designed templates. With a drag-and-drop interface, users can personalize layouts, add or remove dynamic sections, and modify elements to create a fully tailored resume that showcases their experience and style.

Features: DragNDrop of section, Dynamic Template Grid layout, Dynamic Add/Remove sections.

SOFT SKILLS
