SKILLS

- Python
- Html/Css
- Java
- Javascript
- SQL
- Restful Web API Development
- Software Development
- MySQL Database
- .NET
- ASP.NET Core
- CSS

LANGUAGES KNOWN

Hindi (Both)
English (Both)

CERTIFICATIONS

- Internship In Full Stack Development
- MasterClass In Full Stack Development

INTERNSHIPS

Novi Tech | June 2025 - July 2025

- I completed a Full Stack Development internship at Novi Tech from June 11 to July 11. During the internship, I worked on hands-on projects using HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. I developed responsive websites and full-stack applications such as an E-Commerce website, Chat App, Text-to-Speech converter, QR code generator, and Language Translator. I gained experience in DOM

PROJECTS

Hand Sign Detection | November 2024 - April 2025

- This project involved building an AI-based system capable of detecting and interpreting hand signs using computer vision and deep learning. I used a CNN (Convolutional Neural Network) model trained on hand gesture images to classify signs like "Hello", "Thank You", etc. I learned how to work with image data, train deep learning models, and integrate the model into a web application using Flask. I also gained experience in real-time video processing using OpenCV and MediaPipe. The most exciting part was seeing the model work in real-time, making the solution accessible for people with hearing or speech disabilities.

Bank Registration Form | August 2024 - August 2024

- A form that take client details and data entered by client will be stored in MYSQL.

AWARDS AND HONOR

- Achieved a Purple Belt in Martial Arts and represented my district and state at various competitions. Competed at both district and national levels, winning 8 to 10 medals and certificates in different fighting categories. These accomplishments reflect my discipline, determination, and commitment to continuous self-improvement

ACHIEVEMENTS

- Top 10 in class in B.Sc
