PROFILE

Final year BCA student with a strong foundation in frontend and MERN stack development. Proficient in HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and Tailwind CSS. Skilled in building dynamic and responsive web applications, as well as creating user-friendly interfaces. Experienced in C/C++, Python, and possess a solid understanding of data structures and algorithms. Eager to apply my technical knowledge and contribute to innovative development projects as I transition into a professional role.

SKILLS

- HTML5 | CSS3 | Javascript | Tailwind CSS | React JS | ExpressJs | NodeJs | MongoDB | GitHub | Git | C/C++

PROJECTS

Google Search Clone [🔗](#)

Developed a Google search clone app using ReactJS. Integrated Google Custom Search JSON API for real-time search functionality, mimicking Google's interface. Designed UI for intuitive user experience and implemented pagination for efficient navigation. Demonstrated proficiency in ReactJS and API integration

Spotify Clone [🔗](#)

Developed a Spotify-like music app using ReactJS and Tailwind CSS, focusing on creating a responsive, user-friendly frontend with modern design and efficient state management.

Food Reservation [🔗](#)

Developed a food reservation website using the MERN stack. Implemented RESTful APIs for efficient data handling, integrated state management for a smooth user experience.

Travel Agency [🔗](#)

Developed a dynamic and responsive travel agency website using ReactJS and Tailwind CSS. Implemented user-friendly navigation and interactive features to enhance the user experience.

Youtube Clone [🔗](#)

Designed and developed a YouTube clone using ReactJS and Tailwind CSS, leveraging RapidAPI for fetching and displaying video content. Implemented features such as search functionality, video playback, and dynamic content loading. Ensured responsive design for seamless user experience across devices.

EDUCATION

Bachelor of Computer Applications, Indira Gandhi National Open University

01/2022 – present
