Summary

Full-Stack Developer skilled in the MERN stack with proven experience building scalable web applications like Netflix-GPT and DevTinder. Proficient in secure user authentication, API integrations (OpenAI, TMDB), and responsive UI design. Passionate about writing clean code and solving complex problems. Actively seeking remote/international roles to contribute to innovative product teams.

Education

Bachelor of Technology in Computer Science 2019–23
Meerut Institute of Engineering and Technology, Meerut

12th 2018–19
M.G. Public School, Muzaffarnagar

10th 2016–17
M.G. Public School, Muzaffarnagar

Projects

DevTinder Frontend GitHub Backend GitHub Live Frontend Live Backend

- Built a Tinder-inspired developer networking platform using React.js, Redux, Tailwind CSS, Node.js, Express, and MongoDB. Implemented secure JWT-based authentication, real-time connection requests, and a swipe-like matching system enabling developers to connect, send/accept requests, and view mutual connections. Focused on RESTful API design, modular architecture, and a responsive, user-centric UI.
- Frontend Tools: React JS, React Router, Redux Toolkit, Axios, Javascript, Tailwind CSS, HTML, CSS.
- Backend Tools: Node JS, Mongo DB, Express Js, CORS, Cookie-parser, bcrypt, dotenv.

Netflix-GPT WebApp Link

- Built a Netflix GPT clone with React, Redux, Firebase, and Tailwind CSS. Integrated TMDB and OpenAI APIs for movie content, GPT-based search, and user authentication. Features include responsive design, autoplay trailers, and multi-language support for enhanced user experience.
- Tools Used: React Js, Redux, TailwindCSS, Firebase, TMDB

My Portfolio Website WebApp Link

- I created a responsive personal portfolio website using React, JavaScript, Tailwind CSS, and Framer Motion to showcase my projects, education, skills, and contact information. It features a modern design, smooth animations, and a user-friendly layout. Key sections include Projects with links and details, About Me, Education, and a Contact Form. The site also offers downloadable resumes and certificates, with direct links to my GitHub, LinkedIn, and Gmail, serving as a professional platform for networking and opportunities.
- Tools Used: React JS, TailwindCSS, Netlify, Javascript, HTML, CSS

Technical Skills

Frontend Technologies: React.js, Redux Toolkit, Tailwind CSS, JavaScript, HTML5, CSS3, GSAP
Backend Technologies: Node.js, Express.js, MongoDB, JWT, REST APIs
Tools: Git, GitHub, Postman, Firebase, Netlify, Vercel, Framer Motion
Languages: JavaScript, Java
Others: Responsive Design, API Integration, Version Control

Certifications

MERN Full Stack Development Course from AccioJob Nov,2024

Barclay's LifeSkills Programme Aug,2022
