PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in full-stack web development using the MERN stack and Python. Skilled in building responsive, user-friendly applications with clean architecture. Passionate about problem-solving and continuously learning new technologies.

EDUCATION

Degree / Certificate	University / Board	Institute / School	Year of Passing	CGPA / Percentage
Master of Computer Applications (MCA)	Rajiv Gandhi Proudyogiki Vishwavidyalaya (R.G.P.V)	Technocrat Institute of Technology, Bhopal	2024	6.9
Bachelor of Science (B.Sc.)	Barkatullah University	Bhopal School of Social Science	2022	77.15%
12 th	MP Board	Govt. Subhash HSS for Excellence	2019	74.8%
10 th	MP Board	Govt. Subhash HSS for Excellence	2017	72.5%

INTERNSHIP EXPERIENCE

Full Stack Web Developer Intern – Elevate Labs (Remote)

Duration: [July, 2025] – [Sept, 2025]

- Built and optimized web applications using **React.js, Node.js, Express, and MongoDB**.
- Developed responsive UI components with HTML, CSS, JavaScript, and integrated REST APIs.
- Collaborated with senior developers on end-to-end feature development, from **database design for deployment**.
- Improved application performance and scalability**, ensuring better user experience.
- Gained hands-on experience with version control (Git/GitHub) and agile workflows.

ACADEMIC PROJECTS

Online Voting System

[Nov - 2023 – Feb 2024]

Mentor Name: Rohit Khare sir (HOD)

[Department of computer application]

Role: Database & Frontend Developer

- Developed a secure and user-friendly voting application to streamline elections for office and college purposes.
- Implemented authentication and role-based access control, **ensuring 100% valid voter participation**.
- Designed real-time vote counting and result display, improving transparency and **reducing manual errors by 95%**.
- Optimized backend queries and workflows, **increasing system efficiency by ~20% during high voter traffic**.
- Enhanced data integrity and security using encryption and validation techniques, reducing risks of manipulation.

Tech Stack: React.js, Node.js, Express, and MongoDB

URBANMART (E-COMMERCE WEBSITE)

[Aug 2024 - Nov 2024]

Role: Full Stack Developer

[Personal Project]

- Developed and deployed a **fully functional e-commerce platform** using **Next.js**, with features like **product filters, shopping cart, and checkout**.
- Built a **responsive and mobile-friendly UI** with **Tailwind CSS**, enhancing user experience across devices.
- Implemented **localStorage-based cart persistence**, improving user retention and reducing cart drop-off by ~15%.
- Deployed seamlessly on **Vercel**, ensuring high availability and fast performance.
- Optimized product filtering and rendering, **increasing load efficiency by ~20%**.
- Planned upgrades for scalability: authentication, payment gateway, and admin panel.

Tech Stack: Next.js, React, Tailwind CSS, LocalStorage, Vercel

SOFT SKILLS

- Problem-Solving & Analytical Thinking** – structured approach to debugging and resolving challenges.
- Time Management & Adaptability** – able to prioritize tasks and quickly adapt to new tools/technologies.
- Communication & Team Collaboration** – effective in cross-functional teamwork and presenting ideas clearly.
- Detail-Oriented** – ensures accuracy and quality in coding and project execution.

TECHNICAL SKILLS

- Languages: React.js, Node.js, Express.js, Python, tailwind
- Databases: MySQL, MongoDB
- Version control system: GIT/GITHUB, VS Code, Postman
