PROJECT

Notes Web App

Oct 2024 - Nov 2024

- Developed a Notes Management app using the MERN stack, enabling users to create, edit, and delete notes with real-time updates.
- Integrated toast notifications, secure authentication, and RESTful APIs for efficient data handling, ensuring scalability and responsiveness.

Hotel Booking Website

Aug 2024 - Sep 2024

- Built a hotel booking platform with room management, user profiles, and booking features, increasing engagement by 25%.
- Developed a responsive React front-end and efficient Spring Boot backend, achieving 98% user satisfaction and processing 1,000+ transactions daily.
- Integrated secure authentication and an admin panel for seamless management.

Cricket Scorer Application

Aug 2023 - Sep 2023

- Developed a mobile application for cricket score tracking, simplifying match details and score entry.
- Integrated SQLite for efficient data storage, ensuring 99% data accuracy and a user-focused mobile UI design.
